## Let's hand out dreams together!

We are now in the middle of winter with our body and hearts shrinking up due to the cold weather with temperatures falling below -10°C. However, the cooking pots of Babfor are producing white steams of rice being cooked with added warmth from the bright smiles of the volunteers. We had a gathering on December 25, 2014 to celebrate the birth of baby Jesus by mustering the warmth of various people including elderly people with no one to rely on, homeless people and foreign laborers by holding the 27th Christmas service on the street together.

Year 2015 has just begun with everyone starting the New Year with new plans and resolutions. I am also sending greetings to my loving brothers and sisters in faith with renewed passion and dreams. When I first began handing out meals on the streets, many people called me a 'crazy guy' as well as an 'idealist' at the time. They commented that what I am aiming to do cannot be realized even by the ruler of the country and is realistically impossible in our society. Many criticized me without trying with comment that it will only last for a short while. However, we are now sharing hot meals with more than 7,000 people every day at the 16 branches of Dail in 10 countries. This is not a dream but the reality.

It was possible to achieve this reality because of the continued sharing and serving by each and every one of the family members and supporters of Dail. I convey my sincerest gratitude with my head bowed to everyone.

The Babfor sharing will continue until there are no more hungry people on earth. To this end, I urge that you would participate in the Rice Pot Relay, the campaign for Relay of Rice of Life, that commenced on the Day of Dail (November 11) in 2014. We have to act now in order for the rice that are being poured in is delivered to the hungry children in North Korea, Asia and Africa by transcending the boundaries of Cheongnyangni.

That is right. I am dreaming. I dream of the day in which the children in the ghettos are fed full, and follow and fully realize their dreams by having Babfor campaigns led to Ggumfor (handing out dreams). Won't you join me in handing out such dreams in 2015?

## Tanzania Dail Community

### AZAM Food Aid Project

---

#### Byeon, Chang Jae

Director of the  
Tanzania  
Dail Community

Tanzania Dail Community had fortunate encounter with AZAM that further propelled our cause, 'Let's go!'

As with the majority of African countries, cost of living is also very high in Tanzania. The reality is that the lives of the common people are getting increasingly burdensome due to ceaseless corruption of the politicians. Many people have to live miserable life of having to make living with the earnings on daily basis.

People who belong to such socially vulnerable and economically impoverished class live at the Kunduchi quarry where the Tanzania Dail Community is situated. On the daily income of about US\$2, they have to pay the monthly rental cost of TSH 30,000 (\$20), cost of living and raising children, thereby enforcing them to live a life without any hope for improvement. Moreover, even if they wish to work, it is not possible to work every day.

In the midst of such dire situations, there are children who had to give up education in the middle of their elementary school years. Accordingly, the Tanzania Dail Community opened Hope Class to teach such children. We are also providing food items once a months and school supplies, clothes and shoes on regular basis through forging of sisterhood relationship with these children. Corn powder is included in the food items distributed because 'Ugali', the main stable food of Tanzanians, is made from corn powder. There is a company called 'AZAM', which is a major conglomerate that manufactures corn powder. In other words, AZAM in Tanzania is a multinational conglomerate with the status similar to that of Samsung in the East African region. It is an unrivald corporation in Tanzania involved in manufacturing of food items such as juice, ice cream and milk, ship building business, satellite broadcasting and manufacturing of TV in 8 countries including Tanzania, Kenya, Uganda, Burundi, Rwanda and Mozambique, etc.

In August 2014, while waiting in line at the Immigration Office to renew my visa, I had opportunity to start conversation with a gentleman who was next to me. I naturally had the opportunity to introduce Tanzania Dail Community to him and told him that

we distribute corn powder and juices that AZAM manufactures. The gentlemen, after having heard my story, told me that he works at AZAM and there may be something he can do to help me and will contact me shortly. The next day, he really got in contact with me with the great news that AZAM will supply corn powder and juices with discounts and deliver them to the Babfor Center without any extra charges. We are currently purchasing the corn powder with 30% discount from the market price, and juices at discounted price. Savings on the transportation cost added to this discount have been enormously helpful in the financial management of the Tanzania Dail Community. After having continued this valuable encounter with AZAM, the company has decided to develop Babfor services and social contribution programs at the company level.

Tanzania Dail Community, which was opened in January 2013, is starting from now, from here and with the things it can do in order to cooperate with a corporation in Tanzania. Although the beginning was humble, we seek your continued concerns, interest and encouragement in order for use to be linked with the 2nd and the 3rd companies like AZAM.

## GoGo with Bbangfor while riding the Hana Tour boat!

Hana Tour has been continuously putting efforts in social contribution projects by providing the support for the projects of Cambodia Dail Community since 2011. In particular, Hana Tour made pledge to annual donation of \$20,000 for the next 5 years in order for us to provide more diversified benefits to those living in ghetto in Phnom Krom and other areas. The donation that Hana Tour made is used mostly for the 'Bbangfor(Bbang means bread in korean)' project that bakes fresh bread every day for distribution to the needy people as well as for the 'boat support' project for the residents living on the waters of ghetto at the Tonle Sap Lake.

'Bbangfor' project is delivering love by sharing the bread baked everyday not only to the children who are fed through Babfor but also to the children of the villages victimized by landmines, kindergarten and elementary school in the ghetto, and the Andong villages in Phnom Penh. 'Bbangfor' that began with Soboro bread has become increasingly more diversified with other range of breads including sweet red bean paste bread, morning bread, donut and baguette. Moreover, we are assisting the children in the ghetto to become self-sufficient after they finish their school by teaching them baking techniques.

The 'boat support' project provides boats to the residents of the ghetto on water at the Tonle Sap Lake who are financially capable of purchasing boat in order to enable them to make living by catching fishes, thereby providing the foundation for their economic self-sufficiency. In addition, these boats are also used for shuttling the students without boat to go to the school, thereby providing the opportunities for the children who need education to study at schools.

In particular, the "Miracle of \$1 in Cambodia", a tour product of Hana Tour was selected as the most outstanding product in the "Outstanding Tour Certification Product in 2014~2015" organized by the Korea Association of Travel Agents with the granting of the Excellence Certification Mark. Many tourists visiting the Cambodia Dail Community through Hana Tour are delivering love and practicing sharing with the children by preparing and distributing meals and cleaning at the 'Babfor Center' that directly distributes meal and bread to children every day.

#### Shin, Su Young

Assistant Director of  
Cambodia Dail  
Community

## Provide hope to the machine sewing classes!

Nepal Dail Community was opened on January 11, 2008 at the Manuharu Riverside where the poorest people in Nepal live. The Community fed the children who were going hungry day to day and educated the children who were begging and roaming the streets of the village without being able to go to school from the day the Community was opened. However, regardless of how ardently we fed and taught the children, the poverty continued unless the household environment could be changed and improved.

As the ability of the children improves by studying, we enabled them to go to the regular schools by linking them with sponsors who pays the tuition fees, purchases school uniform and school supplies as well as provides the food for the children on monthly basis. We also execute concurrently the education on the parents of the children by inviting them once a month in order to convert their cognition to raise the children as competent persons capable of working not only for themselves and families but also for their country in the future. However, as we were providing education by inviting the parents, we came to realize that changes are difficult unless we improve the cognition of and offer opportunity to work for the parents first. Therefore, the Nepal Dail Community began with the Occupation Skill School for Women that taught Nepal language to improve their literary level, hand knitting and machine sewing through the support by the Fruit of Love (a social welfare community chest association). The Fruit of Love provided 20 units of sewing machines and assisted with teaching by renting a venue for practical education for machine sewing.

## Nepal Dail Community

Provide hope to the machine sewing classes!

---

**Choi, Hong**

Director of Nepal Dail Community

The biggest success we have achieved through the Occupation Skill School for Women over the last 2 years is that we were able to give hope to the residents of the ghetto who had no hope in their life other than to beg or pass their time idly due to lack of work they can do. As they considered the relationship with the sponsors only as beneficiaries of the relief goods and aids, they could not contemplate the option of trying to change their lives through their will and efforts. However, they realized that they can bring about changes by putting in efforts through the Occupation Skill School for Women, and began to nurture hopes by finding works they can do to make living.

Wherever the Dail Community is, we are involved with missions of assisting the people stricken with poverty. Among these locations, we have attempted to convert the cognition particularly of people in Nepal who were blaming the passing the poverty down the generation to their adverse environment

and living their lives by assimilating with and accepting such environment. Through the Occupation Skill School for Women, we not only teach skills but also their native language in order for them to input their opinions during the exhibition of their works in order for them to bring about changes in their life in which they are now taking the lead in planning and making their lives happier from the previous life of passively complying with and accepting the life that they were born with. We are so grateful for the changes and happiness that were brought about.

There is an old saying that those who do not want to work should not be allowed to eat. Although the residents of the ghetto in Nepal are still at the infant stage in their pursuit of accomplishing the goal of achieving the life of working and sharing with others from their previous life of only receiving, we are planning to continue to operate our Community to lead them to lead their own lives of creating more beautiful world for themselves

as they managed to have initiated such changes with the wisdom contained in the words that 'a good beginning is half the battle'.

However, we are very disappointed that the pledged 2 years of support from the Fruit of Love has just ended and we are confronted with so much difficulty in continued operation of the Occupation Skill School for Women. In order to continue with the project so that the women will continue learn and work to provide livelihood for their family, we transferred to a smaller location with lower overhead costs, reduced the number of staffs and concentrating on the sale of school uniforms.

The skills of these women are not at the level of manufacturing high quality goods yet and, as such, it is necessary to further educate and provide practices for them on their skills for more value added works. Moreover, we need to continue to recruit new people for training as well as create more employment opportunities for them and secure greater resources for operation of the School. We are planning to provide beginner and intermediate classes with duration of 1 year for each level. Those who managed to acquire high level of skills will be provided with opportunity to work with set wages for 2 years in order for them to forge the foundation for economic self-sufficiency.

For this purpose, we sincerely and urgently need your help. Your love and sincerity through small donations will be greatly helpful in firm rooting and blossoming of hope in the hearts of the impoverished children and households of Nepal. We urge that you would deliver hope and dreams through love so that these children and women would not have to beg on the streets again but rather build up more beautiful world for themselves by fortifying their ability to be self-sufficient.

### **Our children Our hope!**

## Christmas Service on the Streets in Korea

### The 27th Christmas Service on the Streets

On Christmas on December 25 in which everyone is celebrating the festive moods, our neighbors were gathered to celebrate the joy of the birth of baby Jesus in the manger as the light of the world. Dail Community held the "27th Christmas Service on the Streets" with the alienated neighbors this year again in order to ensure that they will not spent this cold winter in loneliness.

In the midst of the happiness filling the air during this festive season of Christmas, Dail Community ensured that there would not be any alienated neighbors due to the high threshold of our society in mingling with others by holding passionate service with the songs of praises reverberating through the streets and sharing the hot meals prepared sincerely by volunteers as well as gifts to keep them warmer through the bitter weather of winter. This service provided great deal of happiness to all the participants by thawing the chilled hearts of each other through sharing of true love in the midst of sincere joy of Christmas. In particular, we were able to present more abundant present including the winter garments donated by the Hana Financial Group and the Ministry of Culture, Sports & Tourism as well as warm socks provided by the Korea Franchise Association to our alienated neighbors.

Moreover, it was possible to offer Christmas service on the streets this year, which was happier than any other years due to harmonious execution of the prepared programs on order because of the passionate efforts of more than 300 volunteers without any safety accidents.

Christmas service on the streets with all our neighbors will continue next year because of those who serve with their hearts and physical efforts in order to create Christmas that everybody can celebrate rather than Christmas filled only with the happiness of individual.

# S T M A S Christmas of Dail Communities throughout the World

## Christmas in the Philippines

Philippines Dail Community Christmas held a service. As is the case in any region in any country in Christmas, it seemed that all the children from the ghettos in the Philippines appeared to have gathered at our Center.

The foremost interest of the children obviously was the present to be handed out to them. That is just fine! Whatever the reason, it is a great blessing that children are celebrating the birth of Jesus through their small lips after having heard the Good News of the Christmas. We ask that your will continue to pray for healthier growth of our children. Jesus who came to earth by having giving up the throne in the heaven! With the love of Jesus, we along with the children of Philippines Dail Community are sending our message of gratitude to all of our sponsoring angels. Can you hear the clamors of cheers of our children?^^ "Merry Christmas and Happy New Year~!!"

## Philippines

## Joy to the world the Lord has come, Merry Christmas!

Unlike the winter in Korea with steam of breath coming out of mouth, Christmas in Africa is very hot. Can you imagine sizzling Christmas under the scorching sun of the equator? Although the weather is sizzling hot and obviously no snow, the hearts of the people in Tanzania and Koreans as well as the rest of the world are the same in celebrating Christmas in concluding 2014. We were very disappointed that we were not able to decorate Christmas tree in 2013 because the construction of the Babfor Center was yet to be completed. However, we interestingly decorated the Christmas tree with Hope Class children in 2014. The children, along with Kim, Ye Rin and David, both volunteers for arts classes, attached photographs with the innocent expressions of the children onto the large sock shaped papers along with various stickers to beautifully decorate the Christmas tree.

As their photographs were pasted on the tree, they ardently put efforts to make the best Christmas tree possible, which chased away hunger and filled us with happiness just by looking at them. Finally, the socks of each children were completed and were linked together with a single cord for hanging on the Christmas tree, making it the most beautiful and wonderful Christmas tree in the world. All the children found it extremely amazing without being able to take their eyes off the Christmas decorations they are seeing for the first time in their life. We convey our sincerest gratitude to our sponsors who provided us with precious love and support throughout 2014 and we shall put our utmost efforts to become the Tanzania Dail Community that spreads out greater love and achieves growth in 2015. Merry Christmas & Happy New Year!

## Tanzania

# Christmas of Dail COMMUNITIES throughout the World

Cambodia Dail Community held Christmas service in Siem Reap and Phnom Penh concurrently along with 1,700 children. The members of the Phnom Penh Jail Church (pastor Yoon, Jong Cheol) prepared special meal and presents for the children at the Phnom Penh Babfor, and the Siem Reap Dail Community delivered the love of Jesus by sharing Christmas presents along with bread, instant noodle and beverages.

The children in Cambodia gave Christmas service overflowing with gratitude and joy with the pray to get to know the love of Jesus with all their heart by realizing the true meaning of Christmas rather than perceiving it as a foreign culture of simply enjoying the festive mood of the Christmas season. The Christmas season this year with the passion of the service with the children that was as hot as the weather in Cambodia! Eokkun ppeulea Jesus, Merry Christmas~!!

## Cambodia

## Nepal

The Nepal Dail Community celebrated the Christmas season by singing and dancing together by inserting the lyric of "Jesus is the light of the world" into the song 'Resham Firiri', which is the most favorite song among the people of Nepal, by inviting 1,300 people at the open ground next to the Community's Center. The Community gave the present composed of hat, ballpoint pen, pencil, pencil case, chocolate, Soboro bread made in Pokhara, Bible and Christmas card contained in a beautifully decorated paper bag to 1,000 children who came to the service wearing short sleeve shirts and on their bare feet in spite of the cold weather. Do you know why the Nepal Dail Community is sharing such great presents? It is because of the single reason of handing out the Bible in order to teach the children the method of receiving Jesus as a friend and becoming a friend of Jesus to live in the heaven now and here on earth in Nepal Merry Christmas~!!

# Rice Pot Relay

쌀 이어가기

# RICE POT RELAY

Campaign for the Relay of Sharing of Rice of Life

How wonderful would it be if our neighbors living in sorrow and despair would regain their appetite and reason for living?

Rice Pot Relay (Campaign for the Relay of Rice of Life) is a campaign to assist our neighbors confronted with dire difficulties including the elderly with no one to rely on by living alone, in entire regions of North Korea and ghettos in overseas.

We are aiming to establish the 'world that is worth living in' by delivering the love and sincerity through the filling of the rice of life into the rice pots of our neighbors experiencing difficult life with loneliness and sorrow in order for them to regain their strength and affirmative spirit through 'quenching of their hunger'.

The Rice Pot Relay began at the headquarters of Babfor Sharing Campaign in Cheongnyangni.

On **November 11, 2014**, the 20th anniversary of the founding of the **Dail Community**, **Rice Pot Relay** began at the headquarters of the Babfor Sharing Campaign in Cheongnyangni.

1. Lift more than 10kg of rice.
  2. Pour it into the rice pot along with the compassion for our neighbors.
  3. Shout 'Rice Pot Relay is the best!' in loud voice.
  4. Make voluntary donation of \$36.5, \$365 or \$3,650 after having participated in the Rice Pot Relay.
- Kookmin Bank Account No.** 467701-01-002291 (in Korea)  
**Account Name** Dail Welfare Foundation (Campaign for the Relay of Rice of Life)
5. After having taken the challenge of Rice Pot Relay, designate the next 2 challengers.
  6. The challengers who have been designated will participate in the Rice Pot Relay within 1 week of designation and designate another 2 challengers for each.
  7. Photographs and videos taken during the participation in the Rice Pot Relay will be uploaded in the website of Dail Community as well as covered by the media.
  8. We will issue the receipts for the donations made for tax purposes.

Those wishing to participate in the Rice Pot Relay should contact the Dail Social Welfare Foundation.

**Inquiries** +82-2-2212-8004 [www.dail.org](http://www.dail.org)

1. Park, Sang Won, the Honorary Promotions Ambassador of Dail Community
2. Lee, Hye Hoon & Lee, Gye An, Honorary Cooperation Ambassadors of Dail Community
3. Hwang, In Gyeong, an Honorary Cooperation Ambassador of Dail Community
4. Jeong, Joon Ha, an Honorary Cooperation Ambassador of Dail Community
5. Jeong, Young Taek, the Chairman of the General Assembly of Presbyterian Church in Korea
6. Kim, Moon Soo, the Chairman of the Special Committee on Innovation of Conservative Party of the Saenuri Party

# Korean Church is the Hope

**Mr. Kim Dong Yeol, an engineer for the Seoul Metro Subway Route No. 1  
Participated in the Babfor services for 6 years whenever he had free time  
Repayment to God who has granted him with new life**

Mr. Kim Dong Yeol, an engineer for the Seoul Metro Subway Route No. 1, (52 years old, photograph). After having completed his mid-night shift on the 3rd this month, he was headed to the headquarters of the Babfor Campaign of the Dail Community (Representative Director: Pastor Choi, Il Do) on Siripdaero, Dongdaemun-gu, Seoul. He has been providing voluntary services for the distribution of free meals here 5~10 times a month for the last 6 years.

I asked him for the reason for his participation when all of his fellow workers returned home to take rest. He said it is the "repayment I am making for granting him another life". Mr. Kim who is an ordained deacon at the Seoul Myungseong Church (Pastor Kim, Sam Hwan) received Jesus in 2000. "Looking back, I had very weak faith. Although I had no inadequacies in my secular life with stable job and harmonious family, I have not carried out the command of Jesus to 'love thy neighbors as you love yourself'".

He then ran into the most severe ordeal of his otherwise satisfactory life in 2003. He was diagnosed with 'chondrosarcoma' also referred to as the bone cancer, which is a very rare incurable disease accompanied by severe pain as the bone swell up. The physician advised that the survival rate of this disease is less than 20%. "I fought against the disease by undergoing more than 30 sessions of anticancer radiologic therapy over several years. Although it was extremely painful and fatiguing, I was able to persist because God gave me the conviction that He will heal and let me live."

Miraculously the symptoms improved to the point of being able to operate subway in 2009. He began to participate in voluntary services at the headquarters of the Babfor Campaign at about this time. "I gave prayer of sincere gratitude with hot tears flowing down my eyes to God for granting me a new life. I reflected on my lack of practicing of my faith and pledged to serve and make my neighbors whole."

Since then, he visited the Headquarters of the Babfor Campaign more than 400 times. He delivered the meal and side dishes while praying that the alienated neighbors would

be able to experience the love of Jesus. Now, the members of the Seoul Metro Mission-ary where he is the head of the voluntary service division as well as non-believers are participating in this voluntary service. His wife and 2 children also participate with him. His family saved a prescribed amount of money on every commemorative days and has been donating a wooden boat valued at \$600 to the residents residing in the ghettos on water in Cambodia through donation to the Dail Community every year.

Although he was diagnosed with full remission in 2012, he still suffers from the after-effect of the disease. He occasionally has difficulty falling asleep due to the severe pain in his arm. He says "it is life by delivering the love of God with humility of disciple Paul who confessed about the diseases of the body as the 'throne God has given as a reminder not to be conceited."

Mr. Kim Dong Yeol, an engineer for the Seoul Metro Subway Route No. 1

서울 지하철 1호선 김동열 기관사

서울 지하철 1호선 기관사 김동열(52·사진) 씨, 약간 근무조였던 지난 3월 아침 그가 향한 곳은 서울 동대문구 서림대로 다일 공동체(대표 최일도 목사) 밥퍼운동본부였다. 그는 6년째 매달 5~10회 이곳에서 무료배식 자원봉사를 하고 있다.

동료들이 쉬는 시간에 봉사하는 이유를 물었다. 그는 "하나님께서 저를 다시 살리신 것에 대한 보은"이라고 잘라 말했다. 서울 명성교회(김삼환 목사) 안수집사인 김씨는 2000년 예수를 영접했다. "생각해보니 당시 제 믿음은 부족했습니다. 안정된 직장, 화려한 가정 등 부족한 게 없었는데도 '내 이웃을 내 몸과 같이 사랑하라'고 하신 주님의 당부를 행하지 않았습니다."

평탄하던 그의 삶에 시련이 찾아온 것은 2003년. 뼈안이라고 불리는 '연골육종'이 발병했다. 뼈가 부으면서 극심한 통증이 찾아오는 희귀난치병이었다. 의사는 생존확률이 20%가 채 안 된다고 했다. "몇 년 동안 30회 이상 방사선 치료를 받으며 병마와 싸웠습니다. 무척 아프고, 지쳤지만 하나님께서 살려주실

6년째 시간만 나면 밥퍼 봉사 : 새생명 주신 하나님께 보답

것이라는 확신을 주셨기에 버틸 수 있었지요."

기적처럼 증세는 호전됐고, 2009년에는 지하철도 운행할 수 있을 정도가 됐다. 밥퍼운동본부에서 자원봉사를 시작한 것은 그 즈음이다. "새 삶을 허락하신 하나님께 뜨거운 감사의 기도를 드렸습니다. 제 믿음에 행함이 부족했음을 반성하고 이웃을 섬기며 온전케 하겠다고 다짐했죠."

이후 400여 차례 밥퍼운동본부를 찾았다. 소외된 이웃들이 예수님의 사랑을 느낄 수 있기를 기도하며 밥과 반찬을 전했다. 이제는 그가 봉사부장을 맡고 있는 서울메트로선교회 회원들과 비신자 동료들도 무료배식 봉사에 동참하고 있다. 아내와 두 자녀도 뜻을 같이한다. 그의 가족은 기념일마다 일정 금액을 모아 다일공동체를 통해 매년 캄보디아 수쌍민민촌에 600달러짜리 나무배를 한 척씩 지원하고 있다.

2012년 마침내 완치 판정을 받았지만 후유증은 남아 있다. 가끔 팔의 통증이 너무 심해 잠을 설친다. 그는 "견딜 수 있을 만큼의 고통"이라며 "육체의 질병에 대해 '자만하지 않도록 하나님께서 가시를 주신 것'이라고 고백한 사도 바울처럼 늘 겸손한 자세로 하나님의 사랑을 전하며 살겠다"고 말했다.

Before I was headed to the Seolgok Mt., a wide range of thoughts entered my mind. Even the hours of making preparations with prayer with sincerity in my heart of wanting to receive the resolution for the unfilled yearning of my soul was also time of fear and lurching.

## After having participated in the spirituality training in Seolgosan Mountain

(1st & 2nd stages)

---

**Skylove, Lee, Soon**

Counseling Psychology  
Professor University of  
Ulsan.

The moment to experience the freedom after breaking down the walls of the heart pains over 20 years

I have been providing consultations to the students by mustering all the knowledge and information I had learned and accumulated by sympathizing with the pains of the students with substantial fulfillment for the role I was playing at the student consultation center and the teach and studying development center of the university with encounters with a lot of students.

However, I began to experience the increasing heaviness of heart with the experiencing of the limitations in my knowledge and academic ability as well as some aspect of my soul that felt unresolved. The consultation hours began to feel more burdensome and difficult as time passed.

I learned about the Seolgok Mt. through the relationship I had with a deaconess who ardently participated in the activities of the same academic circle. As I began to share our life stories together and got to know the pains she was suffering, I felt that it would be difficult to heal such pain with the will of man. However, she was already living her life of personally practicing the teachings of Jesus with the appearance of healing and restoration of her souls. She advised me to visit the Seolgok Mt. and participate in the Dail Training for the Life of Spirituality. I became curious particularly due to my sympathy on the way of life she was leading. Accordingly, I subconsciously sought more information and took my steps toward Seolgok Mt. with higher priority over any of my personal affairs.

I arrived at the Seolgok Mt., which offered me the comfort like the hometown of my mind and resting place for my soul, and the invitation to silence commenced shortly. This span of time was like a bridge to in-depth encounter with God. The lectures by Pastor Choi, Il Do was more like the story on the world of living experiences he had encountered, that is, his life on the sites of the alienated neighbors of our society, rather than lectures in in common sense of the word.

An Autumn trip of Seolgot Mt. with companion

The lecture by Pastor Choi assisted me to ask questions to myself as time passed. These were the questions for the resolution of highly basic and essential issues, that is, who am I? As I fell deep into silence, I put efforts to stillly listen to His voice. My life over the last 20 years flashed through me as though looking into a kaleidoscope to offer me the opportunity to look back on them. I was so saddened by the past life of having subjected myself to the pain by creating such pain myself through confining of myself into the dungeon of my thoughts.... The world of the pitch dark cave was like the darkness prior to the Creation and the appearances before getting to know God. I was able to experience the changes in my emotion that I have not felt before as soon as I began to consider the world of my thoughts and feelings, and the worlds of facts.

As soon as I realized the world of the facts, my heart was filled with unlimited joy. I repeatedly cried and laughed. Then, I remembered the incidents that truly made me angry over the past years. I encountered the issues of anger in me that I could not resolve in the past. However, as time passed, the life of having lived with the feeling so extreme pain and of resentment felt very embarrassing when I was confronted with the question, 'is it that bad to induce such anger in you?' There were all the world of my thoughts and feelings.

God was always with me with His Words in the midst of such silence, through the nature and at the sites of my life, and has been and will be with me even before the Genesis, now and in the future... I was a blind and a deaf. I was simply a feeble blind and deaf unable to see and hear anything because I was busy looking only at my wounds. However, now, I am able to miraculously hear His Words in while looking at that mountain, breathing in the clean and fresh air and hearing the sounds of trickle water in the nearby brooks. 'I love you.' 'Love each other as I have loved you.' I shed the tears of repentance while remembering those I could not forgive. God I met in the Seolgot Mt. was clearly the God of healing, restoration and consolation. I had encounter with God who offers rest to the lonely and tired souls. What I remember most clearly was pouring of lucid water, which was the time of the true restoration only through the grace of God.

Many changes occurred in my life after my return from the Seolgot Mt. Firstly, my preparation for the lectures that previously was relied only by reading books. I am now serving my family with joy and gratitude as though controlling and cleansing my heart through the practicing of the dishwashing as the first step towards the sainthood. Love means getting along well with the closes people around you. I encounter God in greater depth by meditating on the Words to be contemplated in the morning and forge special relationship with God in all the encountering in my life. I am resolved to tread this path with God who tells me to "Love, just love as though nothing has been hurt" through the living of the life of little Jesus in my life.

## On-site Story

### Philippines

Journey of visit to Korea by Ruth, a kindergarten teacher from the Philippines

I took Ruth, one of our kindergarten teachers to the 'Dail Home Coming Day' workshop, which is an annual meeting of the Dail Community held in Korea, to look back on the previous year and plan for the New Year with the gathering of all the directors of the overseas branches in order to have her participate in the Dail Community DTS training for the first time among all the staffs of the Philippines Dail Community. Ruth, who could not even dream of traveling to overseas country, visiting Korea and experiencing the sites of serving and sharing at the headquarters of the Dail Community was a very precious experience. As she walked the streets of Seoul that she only saw in the TV or mass media, she repeatedly exclaimed "It's very exciting!" while marveling at various aspects of Korea she was seeing. Although she was shivering from the cold she never experienced in the Philippines with tropical weather, she cheerfully answered with "I am enjoying~!" to the questions of concerns of those around her. Upon her return to the Philippines, Ruth is performing her duties extremely well with fortified sense of belonging and calling. I would like to convey my sincerest gratitude to Professor Cho, Heung Sik and Mrs. Oh, Jeong Soon who offered her great meals with abundance of the compassion of Koreans.

---

### Cambodia

A 5-year old child, 'Rom Widat', lives in the Chong Khneas village in Siem Reap in Cambodia. He was diagnosed with valvular endocarditis only 2 months after the birth and was unable to swallow the mother's milk and began to vomit all that he consumed. Since then, he is striving on gruel made by mixing powdered milk and sugar over the last 4 years. Although he was born in December 2010, his weight is only 5kg, slightly higher than a new born infant. Although the parents took the child to various hospitals in Siem Reap, Cambodia, all the doctors told them to give up as there is no possibility of healing him and would not treat the boy. Both of his parents are currently in Thailand to make money to support the family. The economic circumstances are so dire that they continue to have difficulties in purchasing the powdered milk to be consumed every day, let alone the cost of treatment for the child. Accordingly, the Cambodia Dail Community is providing the powdered milk fed to 'Rom Widat'. He is currently living with his grandmother who is taking care of him in place of the parents

who are working in Thailand. Whenever we give powdered milk to her, she would hold both of our hands and repeatedly says "Eokkun, Kkun (thank you very much)" with tears flowing down her cheek. We are only regrettable and sorry that we are limited with what we can do for her although we would very much like to help her by sharing more Cambodia Dail Community is continuing to look for ways of assisting 'Rom Widat' to be treated for his illness in Cambodia to lead healthy life as any other child. We ask all the readers of this newsletter to pray for 'Rom Widat' so that he will be able to run around with other children at the Cambodia Dail Community to his heart's content and eat regular meals like all other children.

## V i e t n a m

Babfor voluntary services is an energizer for life

(Thoughts of a staff of Lotteria) I always through that voluntary services is making donation of material things such as cash, snacks, books and clothes to those with financial difficulties. However, this perception of voluntary services changed when our company (Lotteria) began to participate in the voluntary service of distributing free meals to the needy people in cooperation with the Vietnam Dail Community Babfor. I am filled with joy whenever I see those receiving our services becoming very happy as we bring meals to their table, clean the table, washing dishes and presenting minor things such as nutritional supplements, instant noodles and milk to the users of the Babfor Center. I realized that regardless of how trivial it may be, provision of voluntary ser-

ices with sincerity of heart can bring happiness to many people. Although I am not able to provide substantial material values to them, I am quite content that I am able to donate my capabilities, albeit minute, to those who are in need. I am grateful that I was born and grew in great health and under abundance of love from my parents. Through this experience, I made resolution to live my life more ardently and make greater contributions towards the society. I am thankful that I am able to participate in such significant activity and would like to continue my participation in the future.

La Thị Trúc Mai

THANH CONG  
Commencement of voluntary medical services

THANH CONG, which is providing regularly scheduled sponsorship and voluntary services on monthly basis, has begun to provide not only Babfor services but also voluntary medical services since December. For the voluntary medical services, the medical doctors and nurses at the hospital operated by THANH CONG visit the Babfor Center personally to provide medical treatment and hand out drugs free.

We are extremely happy because of the staffs, medical doctors and nurses of THANH CONG who, rather than waiting for the patients at the hospital, personally visit the Center to look around the our neighborhood and treat not only the diseases of the body but the pains of the hearts of those who had to persevere pain because they had no money to buy drugs, let alone visiting the hospital.

Dail in China has received new family members, Maiway, Tianlong and Huizhen, who are brothers and sisters born and grew up in Heilongjiang Province. They were not even able to enter the gates of school not even once although they are 8 and 10 years old without being registered in the family register although they live with parents with disabilities, and roamed around remote areas. With great difficulties, we managed to register them in the family register and had them join us as family members. The oldest girl (Maiway, Chinese) is 10 years old and would be able to enroll into school in the fall only after having made preparations for a semester. The youngest girl (Huizhen, Chinese) who is 5 years old and so bright and adorable has already won the love of everybody at the Center. With the new members joining our family, there is added vitality in the house with increased liveliness, definitely with more noises!

STS Urban Development (President: Kim, Hyeon Seok) and China Dail Community entered into sisterhood relationship through the events on the Day of Dail on November 11. Mr. Kim, the president of STS, is a valuable person who serves the neighbors with humility by offering his services in the kitchen or parking lot whenever he has a chance. He introduces the Dail Children's Center in China to whoever he meets and sends those wishing to help the Center to us. Moreover, he pledged continuing assistance after having heard the difficulties of the Dail Children's Center in China. We are so grateful for the enormous assistance he is providing. We have no doubt that the beautiful cooperation between the Dail Community in China and STS Urban Development will result in yielding of abundant fruits of love!

We currently have 6 high school and 4 university students at the Dail Children's Center. In particular, the university students are in dire need of notebook computer for their study needs. However, the Center is not able to purchase the computers for them. Accordingly, we would be most grateful if you could donate notebook computer that you are not using to the Dail Welfare Foundation in Korea. It would be most valuable to our children in their pursuit of dreams through the studies they are currently pursuing.

## C h i n a

New family members

Sisterhood relationship forged between STS Urban Development (President: Kim, Hyeon Seok) and China Dail Community

We are seeking donation of used notebook computers!

### 1,2. Dail Community in China

Angela and Belinda are sisters through the marriage of their parents. They have the same mother but different fathers. They also have older and younger brothers who fathers also differ from their fathers. The same mother married with 4 different men and had 4 children. When we met Angela's mother for the sisterhood relationship for her children, all of her 4 husbands have left her, leaving only her 4 children at her side. The face of the mother shone with beauty along with truly good-natured and beautiful smile in spite of the old and shabby cloth she was wearing. However, perhaps because of the heavy burden of life of having to raise her 4 children without husband by crushing rocks at the quarry, she was diagnosed with cancer in last September and passed away in December, leaving her 4 children, Kelvin (13 years old), Angela (12 years old), Belinda (8 year old) and Joseph (4 year old), behind. Although they all have different fathers, these children who lived as a family under the same mother are now forced to part from each other due to their mother passing away. Our hearts ache to see the children who have to be parted from each other even before the sorrow of losing their mother without any protection from poverty and diseases. We urge for your prayers for the children left behind and extend your helping hand in order to provide continuous consolation and support for these impoverished and alienated children through sisterhood relationship.

He checked in at the Dail Little Heaven with the diagnosis as a terminally ill patient with only 1~2 months left in his life due to the laryngopharyngeal cancer that has metastasized to the entire area of the brain by the National Medical Center of Korea in April, 2014. Mr. Kim 00 who liked to talk frequently told me of his past life stories and recollections of the happiest moments of his life. He frequently bled heavily through his nose and occasionally banged his head on the walls when the pain of the disease was unbearable. However, he repeatedly recited that, "I will never die." Mr. Kim, 00 who was making preparations to receive God by ardently participating in the questions and answers for the baptism upon the recommendation of one of our staffs held a meeting with his family for reconciliation short while ago and got in contact with his older and younger brother he had not spoken to for more than 15 years. They even came to see him shortly thereafter. Following his reunion with his brothers who he severed contact with until then, his older brother sent seafood caught in Tongyeong and native potatoes and sweet potatoes of the region to enable Mr. Kim00 to recall the memories of his hometown. Although his younger brother was very busy, he visited him at least once or twice a month to renew their brotherhood by having meals together at the Dail Little Heaven. I was able to see the happiness filling in him with the smiles on his face with the anticipation of the joyous time he will have on the scheduled day of their visits. Dear Mr. Kim00, I pray for your happiness till the day we meet in the heaven. Dail Little Heaven will be with you always.

## Little Heaven

My goal is to live till tomorrow, one day at a time.

Little heaven

# I am a **happy volunteer**

**Road Traffic Authority**

The staffs and executives of Road Traffic Authority, which is in charge of the traffic safety in Korea, joined the services in distribution of meals at Babfor. They not only served meals to the elders sincerely but also made donation for the cost of the meals for the day. The kitchen shone brightly after their visit and look forward to seeing them again in the near future.

**Korea Institute of Science and Technology**

The staffs and executives of the Korea Institute of Science and Technology along with the Honorable Dr. Yoo, Young Sook, the former Minister of Environment of Korea visited Babfor. In addition, Mr. Choi, San, the son of Pastor Choi, Il Do, also participated in the voluntary services in his capacity as a researcher at the KIST. Their valuable services and sharing warmed not only the hearts of the elderly member but also the staffs of Babfor. They left with the promise to return in the near future. We are truly thankful for their services.

**Seoul Guarantee Insurance, SGI**

The staffs and executives of SGI visited Babfor and took care of the distribution of a meal for the family members of Babfor. I just cannot forget the cheerful ambience they created with the contentment they experienced in having performed their respective roles in meal distribution. The SGI team that made pledge before they left that they will not to have their visit a single happening but to return! We sincerely hope to see them again shortly.

**Dong-A Socio Holdings**

The members of Dong-A who had been our partner for prolonged period of time visited us again! They always visit us at about his time of the year without fail and participate in meal distribution and deliver the loving assistances. As usual, the distribution of meal along with the members of the Dong-A Socio group was pleasant and joyous experience once again. They provided wonderful time for the elderly people not only through their meal distribution services but also with donations of love, playing of musical band, Bacchus and vitamins.

**Taejin International**

Taejin International team is a highly reliable supporter of Babfor with frequent visits. It was a special day today in which their services did not end with distribution of meal at Babfor but personally making and distributing Kimchi for the winter season for the elderly people.

The Taejin International team who clamored that they are so happy to provide voluntary services while laughing joyously is truly the best!

**Saemmul High School**

The students of the Saemmul High School provided voluntary services over a period of 5 days immediately upon completion of their national college entrance exam. Although they were awkward with serving at first, they increasingly became more proficient as time passed and were able to prepare the meals for the elders quite professionally. Students of the Saemmul High School who deepened their soul by sharing made pledge to return to the Center and managed to turn their back to return home upon completion of their scheduled services. You are the true future of Korea.

**Seoul High Court**

They are people who are in charge of very important tasks in Korea. They are the staffs of the Seoul High Court. Not only the chief judge but also numerous other judges and staffs of the High Court visited Babfor to offer their services in distributing meals with rice paddle and ladle in their hands. While serving elderly ardently, they stated, "it is people like us who should be coming here more often!" and thoroughly moved all of us emotionally.

**Hebronstar**

The last group is the team from Hebronstar, who visited Babfor for the first time. The staffs and executives of Hebronstar visited Babfor with the donation of love in order to practice love for our neighbors on the anniversary of the company rather than celebrating the occasion only as an event for the company. We are so grateful for their kindness and love!

# Live a life with the earth alive

by Kim, yeon soo

Beloved daughters and sons  
to whom I want to give all the pretty and the sweet of the world,  
In your heart, hold the vast earth  
which makes plants bud and grow  
prosperously in the end,  
albeit, sometimes they shed leaves or are frozen up.  
live a life with the earth alive !

Precious sons and daughters  
to whom I want to give all the right and the good of the world,  
In your heart, hold the proud ocean current  
which flows without losing its way,  
albeit, sometimes it is waved or overturned.  
live a life with the proud current!

Admirable daughters and sons  
any of whose conducts I would never discomfort.  
To your body, put robust wings  
which bring you to the blue sky  
in the end over the cloud,  
albeit, sometimes there are storm and blizzard.  
live a life with the invincible wings !

Proud sons and daughters  
for whom I would sacrifice all my life.  
You shall soon be acknowledged  
that you have the innate power of revival,  
albeit, sometimes you are fallen or frustrated.  
That way of life is not unforked road.  
Also, that from the beginning, the bright sun in the blue sky  
beyond dark clouds is yours.
