2016 Happy New Years

DAIL

A SEED OF HOPE FOR ANOTHER FRUIT

Have you ever seen ume flowers blooming in the cold? In stormy winters, our neighbors in need feel even colder and freezing. Just like the ume flowers blooming in snow, the Dail Community will overcome any difficulty and rise with hope.

There have been a lot of events last year. After the emergency relief in Nepal for the April 25 earthquake, I came back to Korea stricken with the MERS. Despite such difficulties, we could overcome wisely thanks to our sponsors and supporters who had not spared sincere prayers, volunteering and precious donations.

Who could have ever imagined us today when we had to share instant noodles next to the temporary ticket office at the Cheongryangri Station back into 27 years ago? We just planted a seed of hope and caring from the very smallest ones we could do back then to one person a day. At first, we had to endure the lonely and rough days with only few members. But now we have many sponsors and supporters who empower and accelerate our missions and projects.

Now, Dail wishes to plant beautiful dreams in children in less-developed villages in the world. It is so-called the Dreamfor. Maybe we, our generation, will not see the fruits but in 10 years, 20 years, and 30 years, there will be fruitful results.

I truly thank you all. All that we could give was a bowl of humble stew at first but now we can give over 7.5 million bowls. The 475,000-won donation from the people in the slum of Cheongryang-ri served as the seed to build the angel hospital.

Mr. S sent his money from a jail and the money became the first step to collect several tens of thousands dollars fund to save the child with heart diseases, Loeurn. Just like this, I hope each and every one of you to plant a seed of love in the new year of 2016. Thank you. I wish you blessings of love.

It's a beautiful world. Happy new year everyone!

Brother, Ildo Choi

To Sotai

I watched your video at the night of Dail child sponsorship. I was so grateful for the God. You were smiling brightly while telling me that you were finally admitted to your dream university. I was so glad and delighted to have some happy tears.

Dear Sotai, I had no dream for a long time.

But the God gave me another dream of mission work, living in a mission area when I was in my early 40s.

The God, with love and blessing, sent me to Cambodia for a short-term mission project. And on the last day of the mission, I visited the Dail Community of

Cambodia and came to know you. On that day, You became my son in this sponsorship program.

Our relationship has begun with the God's blessing.

After coming back to Korea, I have visited the Babfor in Cheongryangri. I have met you only in photos, letters or videos. If I can meet you in person, I believe I can talk all through the night with you. Just thinking about such a day makes me so happy.

Dear my son, Now the God gave you the dream of being an engineer. I hope you will have more confidence every day from the God. I pray for you to have a great life with the God and belief in God and spread the gospel with appreciation and joy. Although we are far away from each other, we can be together in love and prayers all the time. And I am deeply grateful for it. I wish you and all of your family members the grace and peace of the God every day.

Sotai's sponsor | Mi Deuk Jang

Sotai was admitted to a machine equipment department of university under the child sponsorship program with Ms. Mi Deuk Jang.

To Muna

It's already been over 2 years since I met you first in the Dail Community of Nepal. I remember you and your friends' sparkling eyes could never be covered by any shabby cloth. It didn't take me so long until I recognize you among the several hundreds of boys and girls from little ones in the arms of sisters to elder ones.

Muna, you were helping other kids and you looked so calm and behaved more mature than your age. You were so friendly to the staff members there. It was only the second day of my Babfor volunteering in Nepal that I saw the beautiful person in you.

Back then, I did the medical volunteering and missionary work in Cambodia and the Philippines while gathering more volunteers to feed and teach the children in less-developed villages with the hope to expand my missionary work. So, at first, I met you just as one of the children I wanted to feed and teach.

But, early this year, as I had expected, you successfully completed the 10th year of school. And you sent me a letter calling me 'mom'. That letter from you gave me a new dream. Impressed by your dream of becoming a doctor, I decided to support you continuously as a family and a company for your and my dream.

Dear Muns, I truly wish you can experience the God's will and presence. He stays in the lowest place of the world to make us dream for higher up there, and he realizes all these with deep affection. Soon, I hope to meet you in person either in Korea or Nepal and we can see the love of God with holding each other in the arms. Stay healthy and pray all the time my daughter.

I love you.

Muna's sponsor | Kyung Hee Lee

Muna completed the 10th year of school and prepares to become a doctor under the child sponsorship program with Ms. Kyung Hee Lee.

When we embrace one child in the love of God,
the child gains the power to overcome poverty and dream for a better future.

Have you felt the warmth in another person's arms?

Winter cold reminds us of the sharing of the cozy warmth of our heart.

The look of a sleeping baby in the bosom of her mother makes us smile.

How deeply it would be touching to look at the baby growing up healthy and wonderful?

On November 11, 2015, the night of child sponsorship of Dail, children of Dail Community overseas finally found their mothers and fathers in sponsorship.

We report you on the night of child sponsorship full of love and sharing

Incubate one child. (PumDail 1:1)

The night of Dail child sponsorship event was held in the Culture Hall on 8th floor of Lotte Department Store, Cheongryangri. This event was organized to express gratitude for our sponsorship members who have provided support to the children in Dail Community overseas. The R45 choir of Joyful Church presented a beautiful song to open up the ceremony. And Pastor Ji Hoon Joh delivered a very touching preach full of the God's blessings. Isaiah 46:4 says that "Even to your old age and gray hairs I am he, I am he who will sustain you. I have made you and I will carry you; I will sustain you and I will rescue you". The God already knows and em-

braces every life. So we were gathered together at that night just to do so. That night, everything was so warm and cozy as if it were in the bosom of God.

Encountering between sponsor and child

Sotai entered a university for the first time under the 1:1 child sponsorship of Dail Community in Cambodia. The appreciation plaque was delivered to the sponsorship member who had supported Sotai with great love. When the surprising video message of Sotai was played in the hall, all of our sponsorship members there deeply moved into tears.

>> Famous CCM Missionary Chan Gang

Pastor Ji Hoon Joh of the Joyful Church

Pastor Il Do Choi, Honorary Ambassador Seok Hwa Yun

“
PumDail is to embrace a little person and his or her life.”

>> Special song by heads of overseas Dail communities

>> Surprising video message by sponsorship children

Holding in heart one child

As Missionary Chan Gang, a famous CCM expert, began to glorify God, all of the participants unfolded the handkerchief gifted to them at the entrance. And they saw the children in the photo inside the handkerchief. Everyone called their names and embraced their photo in the chest with tearful prayers. It was a graceful experience.

The heads of overseas Dail offices who take care of the children protected under the sponsorship program wore traditional costume and sung a special song for the God. They sung 'At the place where you call' We were so grateful for them as they are working sincerely and faithfully anywhere they are called.

Dail honorary ambassadors with us

We had Honorary Ambassador Seok Hwa Yun

who had been to the vision trip to Tanzania after joining the child sponsorship and Honorary Ambassador Sang Won Park who helped establish a library in the Dail Community in China. The Ambassadors delivered wonderful speech and stories at that night for all of us to feel as if we were holding the hands of our children under the sponsorship. Most of today's guests have joined the 1:1 sponsorship with children in China, Vietnam, Cambodia, the Philippines, Nepal, Tanzania and Uganda. Deeply touched, Honorary Ambassador Sang Won Park presented his pledge to join 100 more sponsor parents until the end of the year. He's really such a wonderful ambassador of Dail~! Dear sponsorship members, we thank you very much for shedding a light to children deprived of their dreams and hopes. **dail**

Miracle of 365 ships

Ceremony to appreciate ship support

Jin Ohr Shin,

Staff of Dail Community of Cambodia

Siem Reap of Cambodia is the city of well-known historic sites, Angkor Wat. The city has a lake called Tonle Sap supporting the regional agriculture and fisheries. The Tonle Sap Lake has been the largest source of power for the kingdom since the most thriving period of Angkor (9~15C). Now the Lake is also fulfilling its roles.

Every mid-November, Cambodia celebrates the largest event of year, the water festival. The festival was originated from the celebration of winning of Cambodian King Jayavarman VII against the Cham tribe long ago. Cambodians have long utilized ships to do various kinds of activities since their ancient states. In Cambodia, ships have been used to support the national economy and protect peace.

The significance of ship in the country is maximized in the floating village. Unlike any people

in general fishing industry, people in the floating village in Cambodia live on the water 24 hours a day. For them, rivers are the place of life and closely related to their livelihood. On the Tonle Sap Lake, Cambodians without own land or Vietnamese immigrants build floating houses or live on ships. People living there start working even before the dawn every morning to support their families. In the dark, they move out on a ship just by relying on the flashlight for fishing. About the dawn, they sell the fish at the market and spend the morning to repair their nets for tomorrow. Amid difficulties and hardships, they devote themselves to their family. If they have no ship, they cannot support their family.

The Dail Community of Cambodia has begun the ship support project in the chong

khness region from February 14, 2011, in cooperation with the KOICA for income increase and more students in school. Approximately 365 ships were built by 2015. And their income rose by 150% from before the ship support project. Once such a miraculous achievement was witnessed, now we plan to expand the ship support project into other villages as well.

This ceremony to appreciate the ships support was held to celebrate the provision of 365 ships and the successful results in Chong khness village. As the event was the first to be held on the water, the Dail Community had lots of difficulties. However, despite such difficulties, the staff members showed full devotion to make it possible without a problem.

There were many different beneficiaries on their supported ships. It was touching to see them roaring on the ship to join the ceremony or connecting several ships with a motor to come to the place. Ships surrounded the whole event venue and the village head and heads of 7 other towns participated in the event. Under the scorching sun, we had to proceed the event on the water. Still there were so many people to join us and it was never an easy work to gather that many people. The appreciation ceremony for ship sponsorship was organized in front of the Dail floating kindergarten to prevent a possible overthrow by the waves caused by a ship being swept

away or big ships. Director Il Do Choi gave an opening speech and the village head delivered a speech in response and presented an appreciation plaque. The 365 ships made sufficient ship supply to Chong khness. So the village head asked support to another town. The representative of ship receivers said he felt even more appreciation for what he had now, compared with the poor days before the ship. He said, with the ship, his life had changed and he shed some tears while saying that he had gained the courage to make it through a rough time from the fact that there is someone who helps.

During the ceremony, the ships sponsored by the Ahnsan MyeongSeong Church were especially given to neighbors in need in each town as advised by town head. Their bright smile to receive a ship showed a bright hope and also made others smile. The appreciation ceremony for supplying 65 ships was full of many people's happiness and the glory of God. The event was finalized by giving gifts of gratitude for the God's blessings. We are deeply grateful to the God for his presence in all of the ceremony process until the end. We also pray for our interpreters who have prayed with us for this ceremony. Although the event is over, the Dail Community in Cambodia is searching for another region today to give hope and courage to more people, taking a big step towards spreading the God's love. **DAIL**

>> gift giving to event participants

NEPAL

NEPAL BABFOR STORY

The Dail Community of Nepal, Babfor, was established in Manohara, the largest slum area in Nepal. Nepalese normally have two meals a day but children in the area were having less than a decent meal a day. So the meals of Babfor have played a vital role in the children's proper development. Since the Dail Community in Nepal began the Babfor project, children have grown taller and many diseases have disappeared. The Babfor of Dail Community usually serves lunch but in Nepal, given their characteristics, breakfasts are served.

At 8 o'clock every morning, children come to the vision center and share the blessings through praises and words. Everyone makes sincere prayers with one voice and these more than 350 children have a meal. It is a tearful scene to look at the children who carry their weaker younger sister or brother on the back or in the bosom to feed. The Babfor in Nepal gives additional food for free, if asked, until children are full. All of these are provided by the

youth volunteers grown in the Dail Community in Nepal. They do wonderful jobs from meal distribution to help feed small kids and to after-meal arrangement. Of the volunteers, we have those who have completed the 10th school year and been admitted to the +2 college course. So we are so proud of them. Many people participate in feeding the children in shantytown of Nepal, helping them keep their dream while growing up. Normally we need 200 dollars for the meal a day and this amount of money can feed 350 children.

For one child, 30,000 won sponsorship can give him or her a breakfast every morning along with everything else necessary to go to school. We are deeply moved by looking at the children having a good breakfast and going to school with a clean face and wearing a clean school uniform and a backpack each morning. We hope for your continued love and support to the Babfor in Nepal and the children growing up there. [DAIL](#)

Nepalese chicken recipe

Ingredients: chicken, onion, garlic, ginseng, pepper, tomato. Cooking oil, salt, turmeric, musula

1. Chop fresh chicken in proper size

2. Stir-fry onion, ginger and garlic.

3. Add turmeric to the fried vegetables and stir-fry together.

4. Add the fried onion, ginger and garlic to chicken and add salt. Cook the meat.

5. When the meat is almost cooked, add tomato and pepper.

6. Add musula, a Nepali spice, and coriander to serve.

Nepalese chicken dish!

28th Christmas Worship on the road

MERRY CHRISTMAS

This year, the Dail Community also had the 28th Christmas Street Worship in the front yard of Babfor with lonely neighbors so that they do not need to be alone in this cold winter. All are happy in Christmas the 25th of December.

Christmas is for all to be happy for our infant Christ in a manger, who shed a light to the world. But there are people in the street, who do not have somewhere to go. We took care of them by giving warm lunch boxes and gifts to keep them warm in winter while having a service from our bottom of heart to celebrate the birth of our Jesus Christ who brought the glory in the heaven and peace on the earth. We had each other with warm heart to share love and care during the Christmas time.

To join us in the Christmas service, about 500 volunteers of individuals, families, friends and sponsorship members have come. Thanks to their sincere volunteering, about 2,500 seniors completed the program successfully without an accident. It was an ever happier street Christmas Worship than any other.

We are deeply grateful for many of you who provided great support and care to build a happy Christmas for all instead of me alone. So long as we have you, our happy Christmas for all will continue next year as well.

We will work hard until there is no one in this world, who has to skip a meal and feel alienated

Sincere gratitude to our sponsors and volunteers for making possible the 28th Christmas Worship on the road

volunteer Story

Ju Min Song of Dail little heaven
Hyeon Tak Choi of Dail little heaven
Je Seong Jeong
 of Dail Community of Cambodia

New | Dail little heaven discovery of Dail

Dail reminds me of the Babfor in Cheongryangri personally. I have volunteered for the work in Babfor headquarter in Cheongryangri for past several years and my job is directly and indirectly related to it. So I thought I knew a lot about volunteering. But as I experienced in the field of social welfare, it is true that I was much surprised by the dynamic faces of Dail Community which had not been known to me. To me, the Babfor of Dail Community seems to have settled as a global name. And the Cheongryangri Babfor is so famous that every famous figure and celebrity has been there including the president and numerous other political figures, famous celebrities, US ambassador to Korea and famous foreign figures. Of course, the

Babfor has been through countless difficulties from when people didn't even know what the social welfare is about. Now it is the place of love giving out meals everyday to the homeless, and the elderly living alone. However, there are still more than Babfor in Dail. Would it be foolish to think that those who can at least walk to have a meal to the Babfor center in Cheongryangri are in a better situation? It is said that homeless life for a long time deprives a person's mind and health seriously. Irregular meals, uncomfortable sleep, over drinking, etc. expose them larger to tuberculosis, pneumonia and many other diseases. While not taking care of such diseases, they just live on the street only to get an incurable disease. Even if

Secretary General of Seoksung scholarship

Ju Min Song

they are lucky enough to get treatment, they still have nowhere to go after hospital. Unfortunate deaths on the cruel street would have been frequent among them. I came to know about Dail Little Heaven this time. It was established to embrace and take care of neglected and alienated homeless people. The reason of existence of Dail Little Heaven is to provide humane protection to the most lonely and neglected homeless people in the society so that they do not finish their lives on the street alone and live in peace at the end of their lives until a death as a decent human. The organization is also to help their care and rehabilitation by being next to them. This is especially for those with fatal illness among the homeless. It is an angel place to give love to those nearing their final moment. So I thought the organization is not a simple part of the Dail community but an independent area growing as a full segment of social welfare system for itself.

While practicing social welfare programs in the Dail Little heaven, I experienced the overall work processes of a social welfare facility and took care of the patients, managed their health, served meals, moved patients and provided leisure activity assistance. I also responded and guided visitors and learned emergency measures. Of them, my most impressive memories are as follows; First, sincere caring for other people. I saw a staff member who came to work even in the holiday just to keep

the promise with a patient to clip the nails. And the staff members took care of others first than themselves while taking care of the patients for 24 hours. They all showed me the genuine heart of caring for others. Second, the strenuous efforts to keep the first resolution. At the front gate on the 1st floor of Dail Little Heaven building, there is a 28-year-old pot and oil heater. They are the ones used to cook instant noodles for the homeless, the most forgotten people in our society, under the bridge of Cheongryangri in 1988. The Dail Community of today has grown beyond any comparison with that humble group. But all of the executives and staff members keep these old things in order to recall their first resolution back then every time they pass through the gate.

Third, my awareness of the homeless has changed. I realized it was a mistake of hasty generalization to regard the homeless people simply as lazy and idle incompetent persons. They have difficulty in leading a normal social life and this should be regarded as a kind of social maladjustment disorder. If we take a little warmer look at them, we can fully understand and empathize with them.

Last but not least, I could renew the meaning of genuine sharing and volunteering while working for the social welfare program of Dail Little Heaven. I would like to express my deep appreciation to Chairman Yong Geun Joh who took extra care for us to have such a precious experience and every staff member of Dail Community for their hard work. **dail**

Caring and serving

Dail little heaven

Deputy General Manager Personnel Team,
Ssangyong Cement Industrial Co., Ltd.

Hyeoun Tak Choi

Proverbs 16:9 says that "In their hearts humans plan their course, but the LORD establishes their steps.: Accordingly, I started by study on social worker but as an office worker, I felt great burden to fulfill the field practice (for 2 months, 120 hours).

Fortunately, I could complete the practice starting from March 18 with the help of the Dail Little Heaven members who took care of me as a family member. Since then, I have continued my share of sharing and serving until now.

I remember one senior who I help take a bath in a few days of my volunteering. Maybe it's because of my memory of my father who had died of cancer before, I became closer to him. Not just as a volunteer but more than a volunteer, I could develop my relationship with him. Every weekends, I took a walk around the near park and talked with him. One day, I bought him a black noodle and he said 'it's the best I've ever had'.

Last May 1, the Worker's Day, we took a trip together to find his hometown he had longed for with just a vague clue that it's somewhere in Ansung, Gyeonggi-do. But we had to return without much success since we couldn't find the trace of his childhood hometown. But he

Flower plant
Tae Ju Nah

Look closer, it's pretty.

Look longer, it's lovely.

So are you.

looked to relieve some of the homesick and told me 'thank you'. So I smiled back, saying 'let's come back together sometime later'. Maybe many people are hurt just because they don't look closer and longer. If we look around, we will see so many people hurt outside our closer and longer gaze. The Dail Little Heaven and Dail Babfor are waiting for volunteers who add and share love to contribute to build a beautiful heaven on earth. **dail**

Land full of the God's love, Cambodia

Dail Community of Cambodia

Missionary at the Joyful Church

Je Seong Jeong

I am so grateful to come to the Dail Community of Cambodia. I fell in love with this beautiful land of Cambodia. For the recent 7 years, I just have worked hard for my mission. I have experienced a lot and felt like I have grown a lot. Then one day, I suddenly felt the emptiness inside though I believed I had done everything really hard. I could not stop thinking 'if I was doing well! And it was followed by some fear. I had worked hard and joined mission projects a lot. But I couldn't see the justification in any of them to support that I was doing alright. Those lots of works and missions did not convince me that they were within the God. Even I came to question myself whether this was my path or not. Then I realized I needed a break in my life and mission. It was at that time when the Joyful Church sent me to Cambodia and the Dail Community accepted me. What I felt in Cambodia was I was such a small being after all. There was nothing I could change. Also there was nothing I could do. I became a truly incompetent being. Although I had long worked in Korea and had the confidence in myself that I could do it very well, I was actually an incompetent being when dealing with many things in Cambodia. Then I realized why the God put a brake on my life. I thought 'I could change my life and 'I could give many good things to children. But the God strictly taught me that 'I could actually do nothing. So my life had to face limitations of myself. In front of my complete

incompetence, I started finding the God. Once I tried, I could start loving the children when I could have not been able to before. Gratitude and joy started flowing into my tired and stretched life. Then I came to see what I can do there. Though incompetent and insufficient, I became grateful that there were some things I could do with the God. Maybe the God wanted to let me know that I was nothing without him and could find a reason of existence only inside him. So he stopped all of my life and gave me a chance to see him. Then I came to realize this. The God loves Cambodia very much. And the land of Cambodia needs him. I could see that he truly wishes to have more people searching for him. So, just as I met the God in Cambodia, I came to hope that Cambodian people are searching for the God, feel the love of God and live with the conviction in the God. I wish there will be more people in the love of God in Cambodia and the Dail Community of Cambodia will show such a love of God. **dail**

>> service in Dail Community of Cambodia

Cambodia and children

There have been a lot of things in Cambodia but the most memorable experience was the time spent together with the youth club members. I can never forget the great time during the two-day camp. We slept together and made a service together with tears. Every week, we gathered together to study the Bible after service or play games, watch a movie and play in the water.

I can never forget all of these memories.

After the last service, one of my friends, named Jumlaun, came and talk to me "Teacher, before you came here, we didn't even know the God and were not interested in him. But while I was studying the Bible, I came to know him and my thoughts and life have changed, I thank you a lot." This kid has changed now to read the Bible at school every break time,

I really came to believe that I am here for just one soul. Though I have thought a lot and tried a lot to give what I could give to my children, it seems I who have received a lot during the blessed time.

I send my gratitude to the children in Cambodia and Dail Community of Cambodia who took just nobody like me with gracious love

Change in Sopyeak with polydactylism...

Little boy Sopyeak was suffering from polydactylism (six-fingers in a hand). He has changed with the love of our sponsorship members.

Please be strong and healthy!

Sopyeak had six fingers in one hand. He had to hide his hand because his friends teased him for having six fingers. He was living in Omernuak village with his grandfather who lost one leg in a landmine accident. His parents were so poor and he could never imagine having an operation for the hand. It seemed impossible to have a surgery for Sopyeak within his life. But he heard a good news. He now can receive an operation on November 15 by the support from Shinhan Bank and Naver happy Bean.

Since he lives on the outskirts far away from Siem Reap, everything was first for him including taking an airplane to the capital city of Phnom Penh, and receiving an operation at the hospital. As the operation time came nearer, Sopyeak seemed a little nervous and tried not to leave his mother.

With the great love of God, his operation completed successfully. Awaken from the anesthetic, he first said 'Thank you, God!'. He had to hide his six fingers from teasing friends and endure inconvenience in daily lives. But now he proudly thumbs up to sign it's a beautiful world. We are sure that he will live a life of spreading the miracle of God across the world. Showing his proud five fingers, this little body with beautiful eyes plays with friends so merrily. We would like to appreciate Happy Bean staff members, Shinhan Bank and our sponsorship members for presenting such a precious gift to Sopyeak. We will take care of him well

so that he can grow up brightly and healthily. The Beautiful Change Project is continued to heal a soul and change a family and village with continued caring and love toward children in overseas poor villages. The BCP of Dail Community waits for your constant interest and love.

Story from the field

NEPAL

Choi, hong

Director, Dail Community of Nepal

Earthquake in Nepal and blockade

The earthquake in Nepal on April 25, 2015, shook the state called as the roof of the world. Just like the common saying in Nepal that 'what exists today will not be tomorrow', the earthquake made many things disappear. World heritage and almost million houses were completely destroyed or cracked seriously beyond use any more.

What is even worse is the hardships of life caused by the blockage measure taken by India from last September 20. Nepal is still having aftershocks. But more Nepalese are more afraid if the Indian blockage could go longer rather than if another earthquake would come. Now it has become a part of daily routine to see people sitting on a bus roof to move due to the lack of oil. And they ran out of gas so they are using woods for cook fire. Their inconvenience in life would be unimaginable And

the prices of daily necessities double day by day, It is only regrettable to look at the present situation of Nepal. Amid the chaotic situation where the people of Nepal cannot know if they would live or die tomorrow, they tried hard to hold steady and waited for the government to resolve things, saving the state from being mired into a chaos.

They did not stack up goods or sell them expensively, helping all stand and endure the hard time. While the Indian blockade continues, the people in Nepal do not pursue own private interest and gains that would bring upon a chaotic situation. They are such a proud and wise people. I cannot help but supporting these people who try hard to stand fast amid such difficulties with the will not to succumb

>> People in Nepal suffering from hardships due to the blockade by India

to a provocation by India to take the independence of Nepal.

I hope that you also pray for the Nepalese living in the toughest and most difficult time. And if you have an opportunity, visit Nepal and join the restoration work. Help them stand back on foot again. If you are able to provide medical service or education service, please heal and console the country that is much hurt and tired. Please do not think that going to Nepal at this time when everything is difficult would make it even harder instead of helping. Try not to look away Nepal. Build an excuse to visit Nepal at this difficult time. Go tracking or anything to Nepal and tell them they are not alone. They are our family.

The Dail Community of Nepal was in Nepal to console and heal the country with music with the Beautiful Mind from December 18 to 21. From December 25 to 28, a medical camp was organized together with Doctor Yong Deuk Kim. From January 4 to 8, we will do an educational volunteer work for children in poor villages together with the NePum team of Suncheon University. I invite you to be with us and be with Nepal. **dail**

>> using wood for cook fire due to the lack of gas

PHILIPPINES

Sung Hee Han

Director, Dail Community of the Philippines

>> residents and kids shopping at a 5-peso store

Dail Donation Day

On November 28, there was a festival in Malia village. Over 500 village residents and children joined the festival and opened a 5-peso shop. One of the believers in Shindang Presbyterian Church runs a medical business. He donated lots of clothes for Dail Community of the Philippines. And we added the used clothing we had accumulated so far and diverse accessories donated from neighbors. With all these items, we could arrange a shop even better than any specialized shop. The 5-peso shop had two rules – not to take more than two items and to accept only 20 persons at a time and shop for less than 5 minutes. These rules were well abided by and we had a really good time in an orderly environment. People in the village sent great interest and support. Barangay sent 4 guard to the shop. Thanks to such help and support, we could collect 5,000 pesos in donation. The fund from the 5-peso shop and the offerings from every Saturday service for children will be used to buy a project necessary for children's service. Now the fund is insufficient but we hope to buy one within this year to provide high-quality picture during the service. **dail**

CAMBODIA

Hyeonggil Kim

Director, Dail Community of Cambodia

School uniform giving under child sponsorship

In Cambodia, from kindergarten to university, everyone needs a school uniform to go to school. So going to school is very difficult for children in poor family that cannot buy them a school uniform.

Thanks to the help of many sponsors, about 760 children (as of October 26, 2015) under the assistance of Dail Community in Phnum Penh, and Siem Reap center could wear pretty school uniforms and go to school without a worry in the new term in November. On that day of giving school uniforms, children came one by one then the wide Babfor dining room was fully filled with children then the church in Throokbueok and even the front yard of a child's house in Omenuyak were crowded. At the thought of wearing a clean new uniform, children were already excited. Some of them wrote a card to sponsorship members for Christmas. They wanted to take photographs of them wearing the new clothes to share the joy and appreciation with the sponsorship members.

Are you ready to celebrate the birth of Christ Child together with these excited children preparing for a happy Christmas already?

Cambodia Vision Trio

From November 15 to 19, the Vision Trip with Pastor Il Do Choi took place in Cambodia. This Cambodia vision trip was consisted of plenty of small and large events including mobile Babfor

in Throokbueok (village of mine victims), event to appreciate the sponsorship to 365 ships, and service of appreciation for Dreamfor university admission. Especially in the early morning service on the ship in the Tonle Sap Lake, we had a great time listening to the gracious speech of the pastor and watching the sunrise. Some members found a new relationship under the child sponsorship program. I would like to send my deepest gratitude to each and every member of vision trip team who came to Cambodia and embraced precious people on this land in the bottom of their heart. **dail**

VIETNAM

Aeri Lee

Vice Director, Dail community of Vietnam

Happy day! Jesus Christ has come.

The excitement and thrill for Christmas! Everyone waits for the Christmas but the joy of Christmas may not be well shared in the neighbors in Dail Community of Vietnam. For them we had a special angel. The POSCO ICT became our angel to arrange the Midsummer Christmas event and give presents. For the music performance, highlight of a festival, the oboe team of Seongyo Church and Yu Shin Gang, student member of Korean Youth Babfor of Vietnam took the lead to give us a beautiful harmony. Following dance, singing and show stages heated up the festival mood. After the peak, the highlight part of the festival, lucky draw was staged.

>> POSCO ICT

Everyone was excited in the lucky draw, praying for own luck silently. Although not all were lucky enough, all enjoyed the thrill of winning one at the moment. There were amazing presents such as bicycle, dress, dolls, and pots. And winners became the main player of the show to stand up in the stage, took a photo and added great enjoyment.

We all, regardless of the lucky draw, shared the joy of Christmas presents. With the gifts, the Dail Community of Vietnam also shared the deep warmth in the hearts of neighbors.

When the gifts could give such a huge pleasure, how greater the joy would be to rejoice our life present, Jesus Christ. I hoped that more people could share the excitement on that day. Though we cannot expect white snow, our minds were shining brighter than the snow. I would like to express my sincere appreciation to the POSCO ICT for making this event possible, oboe team of Seongyo Church, dear Yu Shin Gang of South Korean youth Babfor and our supporters, BETHEL VINA, A PLUS VINA, HAPPY COOK, MAX VINA, THANH CONG, VEGAS, LOTTERIA, Saigon dream Church, Babfor team 29, volunteer center of Ulsan Metropolitan city, UEC (UNIVERSAL ENGLISH CENTER), Red Cross in Chungbuk, Council of Heungdeuk District and many volunteers who joined us to prepare for the meal. Expecting for next year's Christmas festival, I greet with joy many sponsorship members in Korea and everyone who prays for the Dail Community of Vietnam. Joy to the world! The Lord has come~ Merry Christmas to you all! **dail**

TANZANIA

Jongwon Park

Director, Dail Community of Tanzania

Graduation of students in hope class 2

The hope class 2 has begun last March and this December 11, they will finally graduate. It is a historic event. Of the 35 children, 29 will graduate and transfer to public schools and 6 remain in the hope class for one more year. Of the 29 graduates, 20 are admitted to Memkwa and 9 will transfer into 1st or 2nd grade according to their study ability. For their transfer into a general public school, we helped them go to a nearby public school and have them take a test for study ability and proceeded the transfer process. Elementary school in Tanzania is 7-year course and after the 2nd and 4th school years, students must pass the national exam to elevate into the 3th and 5th year. Memkwa which our 20 students are to join this time is a one-year course for the promotion to the 5th grade. If they complete the course and pass the exam, they will move on to the 5th grade. Our students had to join Memkwa to improve their ability sufficiently to move to the 5th grade.

Last March when the hope class 2 was launched, the kids could not write down 1, 2, 3, 4, and A, B, C. But now they sing to praise in English and speak a little chat in English. They can read books aloud in Swahili. Looking at them makes us tearful-

>> school campus our children are to study

ly grateful. I would like to deliver by heartfelt appreciation to all of you who have prayed and supported for our children to grow up with maturity and graduate from the school.

And what is also very grateful is that Joyce showed such a good school performance to take the 14th place among the 211 students. Joyce was a 1st class graduate. She entered a general elementary school and studied really hard. And peter took the 27th place of 211 students in another school. They make such a good model to the class 2 students. How happy and how grateful we are to the God! Thank God. Thank you very much. Thank you our sponsors! **dail**

CHINA

Heejun Lee

Director, Dail Community of China

New family member of China Dail

We have two new family members in the Dail daycare center. One is Mun Nyo Kim (Korean Chinese, female, 13 years old) is a 6th grader at an elementary school. She was parted from her parents when she was 2 and had to wander many places until the municipal government introduced her to the Dail. She is bright, smart and sociable. Another child is under our temporary care after his father had left him in an inn alone. His father has yet to make any contact. He has a difficulty in walking and speaking. So we cannot know his name. We are presently contacting many institutions and organizations to help him. Our innocent kids are all simply happy and excited that they have two new friends to play with.

>> new family members of Dail Community of China

I love you my brothers~!

On the Chinese national holiday, older brothers and sisters have come to visit from other areas. Mi Na Goh couple in Beijing, Rye Na Park in Zhaohe, and Rina from Korea came with a lot of gifts for their younger brothers and sisters. Il Lee and Hong Gwang Joh from Cambodia came in several years. They spent such a warming and great time with the children here. Although they couldn't come, Hae Yeon Han and Yeon le Han volunteering in Siem Reap, Cambodia, sent their

donation via the Il Lee couple. Everyone tried to give us an envelope of money to buy the kids thicker clothes, saying that 'I'm sorry it's too small'. Small... in no way. They grew up into such a wonderful adult, got married and brought her husband. They took a train and plane for 10 hours to come to see us. What they have inside their minds is so much precious and priceless. Thank you and thank you again!

>> the Lee couple visiting China Dail

Thank God for granting me a life.

Last month, we had particularly many birthdays. There were 6 of them, Ji Hyang Jeon, Myeong Ho Lee, Jin Woo Park, Jin Seok Park, Hyeon Huee Kim, and Shihuezhun. So we celebrated birthdays every week. Though we have so many people with birthday on the month, the China Dail prefer to give a small party on the very birthday of each of them individually. People say that when children reach their puberty, they tend to think of many things on birthday which was all happy and pleasant back in the childhood. They sometimes question their different environment and different development phases, asking where is my birth parent. With these thoughts, they spend hard times from time to time. Still, the China Dail members try to be grateful to the God for granting us a life and cheer up our kids by celebrating their birthdays with all of our heart!

Happy birthday my dear child! **dail**

Dail Community of China

U.S.

Gwoon Kim

Dail Community of USA

Hallelujah! Merry Christmas!

Celebrating the birth of Christ child, the king of peace, the Dail Community of USA is to host a new Christmas event to share more with the neighbors in the region. In cooperation with the Cross Point Church in the region, we produced red-colored Goody bags. In the bag we put Christmas chicken and distributed. The Cross Point Church has Missionary Jong Ho Lee of the Dail Community of Tanzania. He was seconded by the Dail Community of USA. The American Dail has built the cooperative relationship for 2 years through him.

The Cross Point Church is a large-scale Baptist Church in the local community and has long played a very precious role of supplying food and daily necessities to people in need in Gwinnett county with the American Dail office through the food pantry service. The American Dail Community has provided financial assistance for food for 2 years. The American Dail staff members and Missionary Jong Ho Lee participated in the volunteering to deliver the donated food ingredients from nearby grocery store to the Cross Point Church twice a month. This Christmas is all the more special for use as the American Dail Community could deliver a

big chicken to each of 400 households in difficulty, who visited the event on that day. We would like to express our sincere gratitude to Director Jae Jun Yuh for External cooperation who spent the time to join the volunteering; Elder Chul Ho Kim of the United Presbyterian Church, good friends in the region and the youth volunteers in the region for their hard work and sincere help. One thing regrettable in that event was the lack of cart to deliver the food. The delivery time was delayed and more people had to wait in line outside in the cold. I came back, thinking that it would be good if the American Dail raises some fund to add more new carts to move more goods. I heard several carts will cost about 1,000 dollars. I pray hard that some angels will read this article and decide to join us in buying several more carts of love. We will wait for your call to the Dail Community in USA.

(770-813-0899 Team Leader Goh Eun Kim)

DAIL ANGEL HOSPITAL DAIL LITTLE HEAVEN

Jeongsun Lim

Director, Dail Little heaven

Little heaven built by the hands of senior patients

On November 27, senior patients at the Little Heaven had a different and fresh experience.

It was to make a three-colored tofu in the village of peace in Mukahn-ri. The participating seniors and staff members enjoyed the beautiful scenery of Mukahn-ri and made tofu in three colors from organic beans. In the process of these colorful tofu making, we could feel the confidence that I could do it and appreciate sincere caring necessary to make the food.

Together with the healthy food of tofu, we also grilled sweet potatoes, the delicacy of winter. Tasting these precious food, we said that 'I didn't know I could cook this well', healing not only the participants but also the Dail staff members there.

Little Heaven with ukulele

The Little Heaven with Ukulele was proposed by the Seoul Metropolitan Government's Association of Facility for the Homeless has begun since November 23. The members have practiced so hard every Mondays and Thursdays.

Our senior patients hold this small guitar looking like a small toy and tweak the strings one by one to build such a beautiful harmony. Their great skill was higher than expected and their improvement surprises their music teacher every session.

The Dail Little Heaven staff members will continue to do our best as well in 2016 to support this Little heaven built one by one by the hands of our senior patients. **dail**

BABFOR

Ji Hyun Lee

Director, Babfor Sharing Movement
Headquarters

You are invited to the festival of five loaves of bread and two fishes!

The address 588, Cheongryangri in Korea is normally known as a sex industry district. As my job is an engine driver, I used to drive through the underpass in Cheongryangri and looked at the sparkling lights from there strangely without paying much attention. After I rejoiced Jesus and became a deacon, I happened to hear that if you go to the underpass in Cheongryangri, you can meet the Jesus who was born in the lowest place of the world. One day, Pastor Il Do Choi visited my church in the evening service to deliver a speech. Still I paid no special interest. I just thought it would be the same kind of mission as any other and regarded Pastor Choi as someone special and different from me.

The Seoul Metro recommended to join a social volunteering work. So I searched for a proper volunteering project and met the opportunity to join the Cheongryangri Babfor once again. I remembered I used to pass through Cheongryangri without paying much attention. Then it attracted my interest more. Since then, I started my volunteering in March 2009 and have done the work continuously for 2 times a year at the Seoul Metro Association and 24 times a year at the Shindap station office.

Babfor clearly shows the miracle of 5 loaves and 2 fish by the Jesus. Although I have joined the event every week, I am still much thrilled and deeply moved by the fact that I am part of the miracle. The Babfor volunteers I have met so far do their best in the work despite the difficulties. The Babfor Director, Chief and staff members show great devotion, unveiling the love of God toward people left alone and unprotected. As a member of Seoul Metro mission and a senior volunteer, I came to do my utmost to collect people on volunteer day of every month. Especially I encouraged people without belief in God to join the volunteering so that the presence of God in the field of sharing would be deeply felt by them. I encouraged not only my colleagues but also their family members to join the volunteering. The Shindap Station office of Seoul Metro has about 200 employees operating the subway no. 1 including train drivers and crew members. Their work schedule is changeable and they must run the subway during the night. So many of them are so tired. Still, on the Babfor volunteer day, about 5 to 10 employees spare their time to join. Twice a year, the employees gather small fund to donate 50 bags of rice. We collect coins through the coin box with the phrase 'give a cup of coffee to a neighbor' next to the office vending machine and donate the coins at the end of year. Also the Elder of Seoul Metro Mission donated a ship to Cambodia upon his retirement. During all these activities, we deepened our sense of reward and gratitude to the God for the thought that our mission was spreading love of God to the neighbors.

This year, we are also collecting some money to donate a ship to Cambodia. I am so grateful

to the God for letting us donate the 4th ship. I started volunteering without knowing what it really was but I have already joined volunteering for 3000 hours in 600 times. I only pray that I will be able to join the feast of five loaves of bread two fishes until there is no one getting hungry in this world. **daill**

A word of Seoul Metro members

Every month, the Shindap station office employees have participated in the volunteering work. How would they feel while volunteering despite their busy schedule? I wondered. So I, too, joined the Babfor volunteering. It was such a busy time with lots of sweating. But my heart became full of love and caring. Then I realized 'oh! Volunteers are very rich in their heart and sharing! Many of my Metro office members were so rich in their minds! Thanks to them, the Shindap station office of Seoul Metro is so warm in this winter. If we care for others, we can have a rich heart together.

| Dal Wu Jeong (Director, Shindap station office)

While working at the Babfor, I saw many seniors and they reminded me of my parents who are no longer with me. The Metro Babfor volunteering is all the more meaningful as members volunteer not during the office hours but during own individual holidays.

| Sang Yeong Jeong (Train driver)

Distributing steamed rice and stew, washing the dishes and supporting cook preparation were unfamiliar for me at first and my hands were aching. But I saw many seniors having the meal deliciously and it was rewarding that I could help at least a little. Most of all, those enthusiastic volunteers taught me to have a chance to look back on myself. It was so meaningful time for me. I will volunteer with deeper gratitude.

| Gyeong Hun Lee (Crew member)

On my way home after the Babfor volunteering, I felt like I was doing something nice. Since it was not any kind of a paid work, I think I could gain more. The innocent minds of other volunteers are delivered to me as well so I laughed all the time. I am very glad that I can give this little contribution to treat a warm meal to every person visiting the Babfor.

| Tae Gyu Park (Crew member)

I have heard about Babfor from the news or people around me but haven't experienced it for myself. Then a colleague introduced the organization and I came to join the volunteering. I realized how important a bowl of warm rice was. The volunteering work enriched my quality of life while watching that others in need were having this warm meal with happiness.

| Deuk Jong Park (Crew member)

I started my Babfor program just to give a little help within my time. And it has already been 5 years. Babfor is most significant in treating a meal to senior people living alone and the homeless. But for me, in addition to this significance, it was such a special gift of my life to go over the wall and talk together.

| Seong Gyun Kim (Train driver)

For me, Babfor is like a battle field of love for fiercely hard work for another day. I have continued my relationship with Babfor for several years. And during that period, I realized that I had solely focused on the roles given upon me. But now, the more I know about Babfor, the fiercer the day becomes here. And the fiercer love brings fruits here. Wounds are healed and needs become filled in this fountain of endless love of Babfor. I love it so much.

| Yun Gi Kim (Train driver)

Babfor sharing Movement Headquarters

 +82-2-2214-0365

I . am . a . happy . volunteer

Babfor

Sammul High School | After the national college entrance exam, the 3rd graders of Sammul High School came to do volunteering for a week. After the university exam, they may have wanted a lot to enjoy free time with friends but they decided to come and showed very active participation. Looking at their hard work was like we were watching the bright future of Korea. Their healthy and bright greetings made big smiles on the senior people's faces. Some of them even promised to join the Babfor volunteering after going to a university. Let's meet again as healthy college students!

ASENA Global Sourcing | When the winter was about to start after autumn, ASENSA Global sourcing members visited the Babfor with warm hearts. We were so impressed by them taking care of each senior members with full heart. But they were even more grateful for having the opportunity to share. After the Babfor volunteer work, President Mi Jin Ryu came back into the office and donated 100,000 won into the donation box, saying that it was for the coffee of my employees but it will work better for the seniors. The day was a series of deep impressions.

Seoul Northern District Prosecutor's Office | Director Chang Jae Lee and the members of the Seoul northern district office came for the sharing and caring volunteer to the Babfor. We thought that prosecutors would be less comfortable and too calm. But they were so bright and smelly to the seniors, speaking 'enjoy the meal and stay healthy!' aloud. They were in the lowest place of the world and listened to the voices of the alienated. We were so grateful for them. They donated 800kg of rice and gave a tangerine to each one of us, promising to continue their volunteering of love. Thank you very much.

Korea Institute of Science and Technology | Following last year, this year again, the KIST members came to visit the Babfor. Director Won Guk Choi of the Future Fusion Technology Research Bureau said it was him who received greater love and impression from the seniors. Every one of the Babfor members was deeply moved. A KIST researcher volunteer said that 'this meal tastes like heaven especially after the volunteering'. He also said the food was so good that it could be broadcasted as a famous restaurant food, making all have a pleasant laugh. "KIST is the best! Babfor is the best!"

Vietnam

Saigon Dream Church | Saigon Dream Church members have left the rich flavor of love, sharing and caring in the Babfor. From the very initial period of Babfor, the Saigon Dream Church has been a reliable supporter to the Babfor until now. They always allow us their warm and cozy bosom like a mother. We believe the whole world will be such a caring place for all if everyone has the heart of the Saigon Dream Church members.

Babfor Team 29 | There are many people who love and support the Dail Community of Vietnam. Some of them has begun the Babfor volunteering since September 29, 2015 and had have offered their service on 29th of every month. They are the happy volunteers at the Babfor Team 29. Whenever they come, they are not alone. They always bring their family members to happily sweat together. Their hard work and happy faces always move us so deeply. We send our best to the Babfor Team 29!

Cambodia

Ms. Ran Suh | We would like to introduce you Ms. Ran Suh who has flown to the Dail Community of Cambodia from Yeayang Church in Korea. Ms. Suh is a nurse. She started the child sponsorship program for KanKayo. She came all the way to Cambodia to meet KanKayo and serve for the country. She joined the medical support mission and Babfor volunteering by the Dail Community of Cambodia to help children and took care of landmine victims in Throokbueok village on the mobile medical assistance. Suh also had the opportunity to meet her sponsor child KanKayo whom she had prayed for by just looking at his photo. After meeting him, she further deepened her determination to pray for him to grow beautifully within the arms of God. Ms. Suh spared all of the time during her holidays to practice and deliver the love of Jesus. Her true love and warm heart colored this October in Cam Dail more beautiful.

Theos School | The Theos School extended great support to the Dreamfor School, the growing hope of Cambodia. And the Theos School sent Teacher Yeong Ryul Kim and Student Yeong Su Lee to serve for our children. Although it was outside the convenient environment of Korea and they had to face a little difficulties and unfamiliarity, they worked so hard every moment without hinting any difficulty to help the children in Cambodia. They enjoyed private meetings and chatting with the kid there over a meal, showing great affection and attention. We express our gratitude to the Theos School, Teacher Yong Ryul Kim and Student Myeong Su Lee for being such a reliable spiritual and material supporter of the Dail Community of Cambodia.

Sam Levenson

>>> Your hands...

for attractive lips, speak words of kindness.
For lovely eyes, seek out the good in people.
For a slim figure, share your food with the hungry.

For beautiful hair, let a child run his fingers
through it once a day. For poise, walk with the knowl-
edge you'll never walk alone...
People, even more than things, have to be restored,
renewed, revived, reclaimed and redeemed and re-
deemed...

Never throw out anybody.

Remember, if you ever need a helping hand, you'll find
one at the end of your arm.

As you grow older, you will discover
that you have two hands.

One for helping yourself, the other for helping others.

*Dear all,
Happy new year!*

From January 1, 2016

The Dail Welfare Foundation,

changes its name into **Dail Community**
for a new beginning.
