COVER STORY

The lights at Babfor are turned on before the break of dawn. We hope that the hundreds of seniors and homeless visiting Babfor become filled with hope in the New Year

A Year Filled with Hope Has Arrived.

At the start of a new year, various four-character Chinese idioms befitting the year are put forth by various sectors and classes. I’d like to share a four-character idiom chosen by small- and medium-sized enterprises (SMEs) for the year 2019. The four-character idiom selected by the Korea Federation of SMEs (K-BIZ) is none other than Jungseokmolchok (中石沒鏤), which appeared in the Shiji: Records of the Grand Historian (史記). It literally means, “an arrowhead deeply embedded in a rock,” but it can be more loosely translated as “unbelievably great power can arise if one concentrates one’s mind.” I hope that you bear this in mind in the year 2019.

On November 11, 2018, which marked the 30th anniversary of the founding of Dail Community, we decided to raise KRW 300 million (approx. USD 2.7 million) for the reconstruction of Babfor, which is currently a temporary building, as our domestic ministry project and to complete the construction of the orphanage in Sindhupalchok, Nepal and the Dail Vision Center in Tanzania as our overseas ministry projects. The Dail Welfare Foundation has been in charge of the ministries carried out in poverty-stricken areas in Korea and abroad, but it was decided that the domestic ministry projects be assigned to Dail Welfare Foundation and overseas ministry projects to Daily Dail starting in 2018.

Dear donors and sponsors of Dail, what is your hope and wish for the year 2019?

Let’s run forward with ardent passion and enthusiasm as well as with a resolve to achieve our grandest dreams to bring

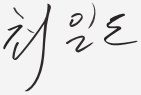

happiness to everyone. Please join me as I move forward with the following three key phrases engraved in my heart in order to be the salt and light in the year 2019: first, it is to “be wise and pure”; second, it is to “not worry”; and third, it is to “wait in patience.” No matter how difficult things get, do not be feel discouraged and fall into despair. What has passed is past. Instead of dwelling on the past feelings and thoughts, live your life based on the above key phrases. When you do that, new paths will open up for you, like the parting of the Red Sea, there be changes in your environment, and you will gain new ideas and courage day after day.

The famous Hong Kong film actor, Chow Yun-fat, made a shocking announcement that he will donate his entire wealth, which is estimated to be around USD 715 million. What is even more impressive that he has amassed his wealth, while spending just USD 100 for himself every month. He has also been using 2G phones for 17 years until 2 years ago when he was forced to change to a smartphone because his 2G phone was no longer functional.

Anyone can dream a grand dream like Chow Yun-fat, but not everyone achieves that dream, as it requires dedication, sacrifice and passion. It shouldn’t cause shame for people to spend so little on themselves and use a 2G phone for nearly two decades. What people should be ashamed about is trying to achieve their dreams and aspirations, without any sacrifice or passion, don’t you think?

Let’s do our best and practice sharing as we live our lives. Let’s do our best to share, even if it is something small. I pray that you don’t give up until you realize your grand dreams in the year 2019.

Sincerely

The Little Brother

Yeeun's Family: We Introduce to You Another Babfor Family

“Thinking of hope again on the edge of a cliff”

Yeeun (pronounced “Ye-eun”), who turned 29 years of age this year, is a member of our Babfor family who suffers a developmental disorder and has the intelligence of a 2- to 3-year-old. She also cannot see at all, as she has visual impairment. This is why she visits Babfor with her mother, Myeongja Kim, who looks after her 24/7. We'd like to introduce to you our Babfor family, who is our neighbor. We'd also like to thank Yeeun's mother for agreeing to do this interview.

Q1. When did you first meet Babfor?

Yeeun's teacher providing assistance in her activities was a volunteer at Babfor. She introduced us to Babfor in around 2010, and we have been visiting every day for a meal ever since.

Q2. We heard your family has been facing hardships. Could you tell us about that in more detail?

Yeeun has turned 29 this year. But she is unable to use the toilet for urination and defecation independently, like a 2- to 3-year-old, and she is also visually impaired. When we do not watch her, she sometimes acts impulsive, like putting her urine or feces on a certain surface in our home or running into a stranger. This is why we need to watch her at all times.

Also, because Yeeun cannot see, it is difficult for her to eat alone without making a mess. When we dine out at a restaurant, we feed her to prevent any unpleasant sights or experiences for other diners. Yeeun tends to feel suffocated when she stays at home all day, so Yeeun and I come to Babfor at least once a day. She is unable to use the toilet on her own, so I often wake up in the middle of the night to take her to the bathroom. So I have a hard time getting a good night's sleep. She urinates on herself in the

middle of the night at times, so I have to wash her bedsheets quite frequently.

When my children were young, I was unable to attend to Yeeun's brother who is a year older. Yeeun's father is currently having difficulties making money due to various circumstances that have prevented him from getting a job.

He and I are still paying back the loan we took out when we got married around 30 years ago. When it becomes difficult for him to work and make money, like these days, we use the subsidy provided to Yeeun toward our living expenses.

Yeeun's father and I did not have a strong economic foundation when we were young and had to take out a loan when we got married. In our 30 years of marriage, we have been repeatedly paying back our loan and taking out a new loan again.

Our son has been able to receive a higher education, and he has recently joined the workforce, but he owes about KRW 30 million in student loans. During his school years, he has worked part-time jobs to make ends meet on his own.

We had loans of our own and had his disabled sister to take care of, so we weren't able to offer any help to our son. We sent him to a rural area for work and told him not to look back, thinking that he should take care of his parents or his sister. We sent him away, telling him that he should begin a new life for himself. He has a girlfriend, whom he'd like to marry, but he hasn't proposed to her yet because he's worried about taking out even more loans to get a home so that they can marry. Honestly, I am very worried that they may break up due to financial reasons, but I am unable to say anything to him because I cannot offer

him any help. My son is very kind and caring, and he has been trying to help us out, even though his own financial situation is grim. He has always been our hope, and I feel confident because of him.

Q3. We are curious about what you are wishing for in regard to Yeeun and your family's situation, amidst the hardships you are currently facing.

It has been nearly 30 years since I got married. I've given birth to Yeeun and her brother, who is a year older. The only wish that I have remaining is to escape the burden of our financial loans. Our loans have decreased a bit because we have been paying it back, but we still have to repay KRW 18 million, which is a huge sum of money. I desperately want to escape from this circling wheel of loans. What has allowed me to endure through all this is my faith in God. In any case, I'd like my family to stay healthy.

Q4. Could you tell us what your earnest wish is at the moment?

I'd like to live of a life of helping others as well. I often think that if my family's financial situation ever gets better someday, I will be able to help others. I hope for at least one opportunity to help others before

I die, instead of always being on the receiving end.

Recently, Ye-eun and her family's story was broadcast on a cable TV channel. However, they had faced a number of ordeals before they were able to share their story with the general public. It was because they were living in a jeonse (that does not require any monthly rent) home with a KRW 40 million deposit.

In our society today, even the hardships of life are subject to comparison and judgment.

We hope for a better world, where people empathize with the pains and sufferings of the less fortunate, instead of judging people's hardships based on whether there are people who have it far worse than they do.

The families of the Babsang Community of Babfor who have been with us for around 30 years each have a story to tell. We hope that Babfor will be rebuilt successfully so that we can continue to be dependable partners for everyone visiting us at Babfor.

"I Want to Smile Again"

1. We are curious as to the situation in Algeria that made you come to Korea.

I came to Korea a long time ago, in around 1996. My motherland, Algeria, was in the midst of a civil war at the time, and it is still politically unstable today. I came to Korea as a refugee to live in safety.

Algerian Civil War

Dec. 26, 1991 – Feb. 8, 2002

Approx. 150,000 to 200,000 civilians were killed. The military coup was eventually squashed by the government, but it sparked civil wars in its neighboring countries in North Africa.

It appeared as though the situation was under control, with the intervention of the world's superpowers. However, conflict still remains and there have been a series of terrorist attacks. The civil war has ended, but Algeria is currently run by dictatorship and is not a democratic state.

Since 1999, the current President of Algeria has been elected four times, governing over the state for 19 consecutive years. The citizens have been unable to protest against the dictatorship, despite the democratic movement that is commonly known as the Arab Spring, due to the fatigue from the prolonged civil war.

2. We heard you applied for a refugee status in Korea. Could you tell us what your life has been like in Korea?

You could say my life is unfortunate. I live amidst worries and anxiety every single day, working just to make ends meet. I don't have a life. Since 2013, I have tried to commit suicide a number of times because I was so exhausted. My most recent attempt was in February last year.

The immigration office terminated my detention status a month ago. I haven't been able to extend my visa since 2013, but I have received a pardon and I can now live my life.

1 Director Cho Won-sik (Seoul Dental Clinic)

2 Director Kim Myung-sun (Dan-A Dental Clinic)

3. What brought you to Dail Angel's Hospital?

After I was granted the humanitarian sojourn status, a refugee shelter contacted Dail Angel's Hospital on my behalf. I have long suffered from cancer, which has damaged my teeth and I only have few teeth that remain. I also haven't been able to speak or eat properly since the operation for laryngeal cancer. I didn't have any money and I was undergoing a lot of hardships, but fortunately, I was given dentures from Dail Angel's Hospital. I was also able to have my teeth pulled out without much bleeding or other medical problems. I am truly grateful to Dail Angel's Hospital for providing me with the treatment and care that I needed.

4. You were given dentures from Dail Angel's Hospital. How are you currently doing?

The process related to the dentures took longer than I had thought. I am still receiving excellent dental care. The dentist who is treating me is very experienced and skillful, so he knows exactly what to do. I am doing all that I need to do, with patience and a sense of gratitude. I'm grateful to the great nurses and many others who are doing their best for me.

5. Do you have any wishes for the future?

I wish to be able to speak properly again and to be able to smile and laugh again. That is my biggest hope. And I believe that it will happen. I think I'll be

able to speak again through the electronic larynx (an electronic device that produces speech based on the trembling of the vocal cords and can be worn around the neck; it became widely known because it was used by Stephen Hawking), which has been donated to me.

I am also waiting to smile and laugh again, with the dentures provided by Dail Angel's Hospital.

I'd like to work with a bright face every day, and I hope to live a brand new life.

Starting this March, it will be possible for me to eat properly using the dentures provided by Dail Angel's Hospital, and I will be able to regain good health. I am receiving treatment for my anxiety, and it will be over in the first half of 2019. So I think I will be able to gain better physical and mental health.

6. Please say a few words to the staff at Dail Angel's Hospital and Dail Community.

I'd like to express my gratitude toward Dail Angel's Hospital and Dail Community. I'd like to thank everyone at the hospital. I'd especially like to thank the dentist and nurses who have been treating me as well as everyone else who has given me this opportunity to smile again. I hope you all continue to work for a good cause. May God bless you to the fullest! Happy New Year! Thank you, Dail Community!!!

The 31st Christmas Worship on the Streets: Sharing with Our Marginalized Neighbors!

December 25 is Christmas, commemorating the day when Jesus came to earth in the humblest form.

In order to celebrate the birth of baby Jesus, the 31st Christmas Worship on the Streets of Dail Community was held in the front yard of Babfor Movement Headquarters in Cheongnyangni.

Since 1988, Dail Community has been sharing warmth with the marginalized classes including seniors and the homeless through the annual Christmas worship on the streets. This year's worship service was held with around 2,500 seniors and 450 volunteers.

Despite the cold weather, numerous people gathered together with high anticipation. Wonsoo Park, the Mayor of Seoul, attended the event and thanked Dail Community for its hard work and dedication, which has been contributing to Seoul Metropolitan Government's efforts to create a city

where no one starves or freezes to death and where everyone can live in happiness.

Pastor Yeongtaek Jeong proclaimed the Christmas message, sharing the words of faith that true peace is achieved by multiple people, rather than alone, and that the greetings of peace we share with our neighbors will return to us as a giant wave of peace.

Dail Community and Babfor have been around for around three decades, yet the meal facilities for the seniors are only provisional. This is why a building reconstruction project will be initiated very soon. To promote this project, Sangwon Park, the PR ambassador of Dail Community, took the stage to provide information on how to sponsor and donate for the project and asked people for their support.

An additional ambassador for Dail Community was appointed at the event as well. Who will join actor Sangwon Park, who has been helping to

promote Dail Community, as a PR ambassador? It is none other than Gahye Chae, a sports announcer for FC Seoul and the High-pass Volleyball Team who is fluent in both Korean and English. During her speech, she stated that she will do her best to attract more people to Dail Community and dedicate herself to the Babfor reconstruction project.

During the special offering, professor Hyeyeon Seo and her students presented a beautiful vocal harmony as they praised God, and pastor Seonggi Cho gave a prayer for the offering. Afterwards, pastor Ildo Choi recited the Universal Declaration of Human Rights, which was repeated afterwards by everyone else including 19 VIP guests. This was followed by the "Rice of Life" performance.

After the worship service, around 2,500 seniors were each given winter clothing and a special kit to help them last the winter season. The seniors expressed great joy, like children receiving Christmas gifts, and seeing their faces light up filled our hearts with joy and warmth as well.

The winter kits were prepared thanks to the donations made by some 30 enterprises and organizations including Goseong, Daiso, Dong-a Pharm, Ministry of Culture, Sports and Tourism, Bon Dosirak, Seoul Oil, Seoul Guarantee Insurance (SGI), and Seoul Milk as well as individual donors. The winter kits each included a thick padded jacket that will help the beneficiaries stay warm in the frosty

season as well as a dosirak meal, heating pads, socks, gloves, drinking water and snacks.

There were around 450 volunteers from Kyung-Hee University Female Staff Society, Konkuk University Graduate School of Public Administration, Hanyang University 1983 Graduates Alumni Association, Jaehyun High School, Chungshin Girls' High School, Kwanghee Middle School and Sungshin Girls' High School. The volunteers flashed bright and infectious smiles throughout the event, despite the cold weather and the fatigue from working since the early morning. Seeing so many volunteers work with such joy made all of us at Dail Community feel overwhelmed and inspired.

More than 500,000 people have volunteered at Dail Community thus far. Pastor Ildo Choi, the head of Dail Community, stated that it is thanks to the countless volunteers that Dail Community has been able to hold the Christmas Worship on the Streets to this day and that Dail Community will do its best to help many more people in the future. It was a very beautiful and abundant Christmas worship service because of the people who volunteered out of the goodness of their hearts.

We hope that peace and warmth reached our marginalized neighbors on this cold winter day, and we also would like to extend our sincerest gratitude to everyone who joined us at the 31st Christmas Worship on the Streets of Dail Community!

CHINA

“Xin Nian Kuai Le! Happy New Year!”

The Lunar New Year is a major holiday in China, just like it is in Korea. Everyone is getting in the holiday spirit, thanks to the wonderful decorations on the streets, and exchanging New Year's greetings, while preparing for the long holidays.

To everyone who has shown love for their neighbors and provided their support for China Dail Community, thank you! You have all worked very hard this year. We wish you all the best in 2019!

Myeonghak & CEO Seongjae Kim

Myeonghak Park, who had graduated from Dail House of Children of China Dail Community, has been working at Obey & Praise (CEO: Seongjae Kim) headquartered in Korea since 2 years ago. Obey & Praise is a manufacturer of electronic display boards for basketball courts, and its CEO Seongjae Kim has been volunteering at Dail Community for the past decade, starting at Cambodia Dail Community. He has volunteered at Nepal Dail Community, Philippines Dail Community and China Dail Community alone or with his employees, building wells and installing solar panels at poverty-stricken areas, in addition to making donations and sponsoring children. As such, he has been serving others consistently for the past 10 years. He was single when he first visited Cambodia Dail Community for volunteer work, but he has since married and is a father of two sons. A couple of years ago, he hired Myeonghak, who went to Korea after graduating from Dail House of Children, and he has treating him like family, while guiding him as a mentor.

They initially faced a language barrier, as Myeonghak was unable to read or write Korean, but they now know what each other is thinking just by looking in each other's eyes. Myeonghak is especially a big help when it comes to work related to China. I am very thankful that Myeonghak has adjusted very well. Myeonghak says that he loves working with CEO Seongjae Kim and he wants to work there for as long as he can. I wish all the best to Obey & Praise!

China Dail Community News

Near the end of last year, the Affectionate Heart Society of China Dail Community expanded the scope of its programs beyond the child sponsorship program to support nursing homes in rural areas, low-income families in Hunchun and grandparents raising their grandchildren in rural areas. While the new programs have been initiated on a small scale, the members of China Dail Community are well-aware of the importance of taking the first step, and with our belief in God's will for us, we are doing our best to serve our neighbors and to faithfully prepare for the programs by conducting accurate field studies and so on.

While waiting for the Lunar New Year on February 5, we are organizing the 2019 Homecoming Day for the graduates of Dail House of Children. We only get to see the graduates, who aren't in the Hunchun area for the regular meetings, only once a year, so we are cleaning the accommodations, making a special

video and coming up with other creative ideas to welcome them back.

Last month, Hiber began living with us in the male dormitory of the Affectionate Heart Society of China Dail Community. Sangwoo Kwon, who graduated from high school and left our care center, also joined us once again. There are now four members staying in our male dormitory.

We ask that you continue to show your love and support for China Dail Community. Thank you!!!

CAMBODIA

Dreamfor Planting Trees for the Next Generation

Shalom! I send you greetings from Cambodia Dail Community in the name of love and peace!

In the floating villages of Siem Reap, Babfor has been in operation for the past 14 years...

A young boy running naked, a young girl with tangled hair, young mothers fighting about who got in the waiting line first... These are the images I am reminded of when I think back to the time when I first started working at Babfor in Cambodia.

A lot has changed since then. As soon as they

arrive at Babfor, the children run to the water taps first to wash their hands and sit in rows.

They line up to receive food, and they are fully clothed, with shoes on their feet.

Above all, more than 80% of the children now get to wear school uniforms that are as white as snow, and they attend school regularly in good health.

This is the very reason behind the existence of Cambodia Dail Community.

Scooping New Dreams, Dreamfor! (Dormitory)

At the start of our operations in Cambodia, there were only elementary schools in Phnom Kraum and Chong Kneas, but fortunately, middle and high schools opened their doors a few years ago.

In Cambodia, grade 12 students need to receive a grade of at least E in the college entrance exam in order to further their education. Statistics show that typically, around 50~60% of the students pass the exam.

A growing number of children who have been eating healthful meals at Babfor, which scoops up not only food, but also love and dreams, are passing the college entrance exam. Most colleges are

located in the cities, where Dreamfor dormitories are located.

For this edition of our newsletter, I would like to introduce to you the elementary, middle and high school students and college students who are fostering their dreams at Dreamfor.

Sophia and Sotai, who are the pride and hope of Cambodia Dail Community, are college students. Sophia is in her third year at Angkor University, while Sotai, majoring in architecture at Build Bright University, is in his senior year.

After finishing the second term of her third year,

Sophia will begin working as a nurse at Dail Angel's Clinic. Sotai, on the other hand, is preparing to study in Korea. He has passed the TOPIK Level 3 examination and is studying very hard to receive a state scholarship.

There is another student who is fostering his dreams at Dreamfor and it is Leueun. He started his studies later than normal, as he had to receive treatment for heart disease, and he is currently in grade 6, despite being 18 years old. However, he is studying very hard as a way to repay the love he has received from Korea. It breaks my heart sometimes, watching him go to elementary school even though he is in his late teens.

As such, Dreamfor (dormitory) of Cambodia Dail Community is dedicated to planting trees one by one to foster the leaders of our future generations.

We are waiting for new "shovels" who will partake in our ministry of planting and nurturing leaders at Dreamfor (dormitory).

High school tuition costs USD 300 a year per person, and college tuition costs USD 700 a year per person.

Saum arkoun (thank you)! What a beautiful world!

VIETNAM

Love Carried by the Beautiful Melodies of the Korean International School (KIS) Orchestra!

I wish to share with the readers of the Dail Community newsletter an amazing group of kind and wholesome students.

They touch people's hearts with music as well as meals, and they are none other than the Korean International School (KIS) Orchestra. I share with you a letter from its leader, Jaein Choi.

Hello, we are KIS Orchestra established at the Korean International School (KIS) in Ho Chi Minh City in 2015. We've become a representative group of our school by participating in various school events, and we visit any and all places where people need music or healing through music.

The KIS Orchestra has been founded by KIS students who know how to play musical instruments and who love music. It was out of our desires to create harmony with diverse musical instruments as a way to alleviate stress from our studies, improve our musical skills, create great memories, and be good students. Our purpose may not be grand, but we believe it is quite meaningful.

The members of our orchestra play various string instruments such as the violin, viola and cello as well as wind instruments such as the oboe, flute and saxophone. We get together regularly for rehearsals in order to hone our craft. In addition, we perform at school events as well as local and foreigner events as volunteers as part of our efforts to contribute to society.

We may not have been able to play music for everyone in Vietnam yet, but we want to provide solace for those who are feeling weary among the locals and foreigners with our performances, even though we may not be perfect. With this desire, all of the members of our orchestra participate in the regular rehearsals.

We will continue to practice very hard and keep on moving forward without a pause so that we can provide a sense of comfort to many more people in the future with our music.

Written by Jaein Choi, the head of the KIS Orchestra

NEPAL

Reopening of Babfor & Christmas Event

Jaimeosi! We send you greetings from Nepal containing the striking Himalayas in time for the year 2019.

We pray that the lives of our sponsors and donors will be filled with grace this year.

We also ask for your continued interest and prayers so that we can share love with even more kids this year.

Resuming Operations at Babfor!

On December 4, heartwarming news arrived at Nepal Dail Community amidst the biting wind. It was news that the Ministry of Social Welfare has granted us a license to operate, which many people had been praying for. And the very next day on December 5, we cleaned and swept the floor of our center in order to welcome the children.

On December 6, the Babfor chef and kitchen staff cooked rice and made Dal Bhat Tarkari with much love and affection, hoping that the news of our reopening has reached all corners of the town. The pleasant smell of dal bhat drew numerous children to our center, and they ran inside, hand in hand. As they sat in the chairs right next to each to receive food, radiant smiles spread across all their faces. It has been around 6 months since our closure, but the children who had volunteered before returned and put aprons on to help out again. It felt as though our

operations at Babfor had never stopped.

The volunteers scooping rice and tarkari had to work especially hard on our reopening day. This was because all of the kids ate voraciously, even the ones who are known to be picky eaters. While watching the kids enjoy their meal, the staff just couldn't stop smiling.

The sun sets much earlier and it is quite cold these days in Manohara. So it is especially fortunate that Nepal Dail Community was able to give this heartwarming news to the local residents here. I ask that you pray for us so that these children, who would otherwise have difficulty eating even one meal a day, will continue to meet Jesus, who is the bread of life, and that Babfor in Nepal will please God, bring joy to its neighbors, and make the world more beautiful.

Exciting Christmas Celebration

On December 22, Nepal Dail Community hosted a special worship service to celebrate the birth of baby Jesus. It was quite packed, with around 830 people visiting from Kathmandu and around 130 people from Pokhara. Madame Bshunu of Nepal Dail Community dressed up as Santa and gave out candies to the children, who squealed with joy as though Jesus had come to earth.

Fun and exciting performances were delivered to celebrate the birth of Jesus. A lot more performance teams participated this year than usual and gave praises of joy.

After the worship service, we gave out the Christmas gifts that had been donated by our sponsors or purchased with their monetary donations. We handed out a hat to each and every attendee in hopes that it will help them stay a bit warmer in the cold winter season, and they all expressed great joy when they received this gift.

Our Christmas worship service, where we give out special gifts, is one of the most anticipated annual events among the people of Manohara. I personally hope that Nepal Dail Community will be able to give gifts to the people of Manohara, just as Jesus came to earth bearing an invaluable gift for us all.

Also, on Christmas Eve, we prepared a special meal to celebrate the birth of Jesus to the fullest, and it was goat meat. Of course, dal bhat tarkari, which we eat on a daily basis, is delicious, but the goat meat purchased with the donations made by PR ambassador Seokhwa Yoon and our sponsor Seongjae Kim was extra special and stirred quite an excitement among the children.

Their eyes twinkled as they gazed at the goat meat, which is delicious and rich in nutrients. As they asked for more, the volunteers shed a lot of sweat to keep up, but they all put their thumbs up saying that food tastes a lot better after toiling away.

I ask for your support and prayers so that we can make and serve nutritious meals every single day for our children to grow spiritually and physically.

UGANDA

“We Can See More Clearly Now”

It is always dark inside the classrooms of public elementary schools in Uganda, as they are no lighting fixtures inside. Even if there are lightbulb sockets installed, they do not contain any lightbulbs because there is not enough money in the school budget to be allocated to electricity. Because the sunlight near the equator is so bright, your eyes will hurt when you step outside after being in a dark classroom for a while. This is what we've experienced after being inside one of these classrooms for just a few minutes. So imagine how it must feel for the kids who have to stay in the dark for 6 to 8 hours a day. There are a number of children who are experiencing the adverse effects of being in darkness for hours each day. What breaks my heart is that they don't even realize their own suffering.

So we've collaborated with Vision Care, a non-governmental organization (NGO) based in Korea, to

perform an eye exam for all the elementary school students in Kitiko.

Based on the results, there were some children who were suspected of having strabismus, cataract, or glaucoma. A surgical team comprised of Korean doctors was sent by Vision Care to perform additional examinations and operate on the children suspected of having cataract or glaucoma. Among them was Muhammad, who was suffering from cataract and strabismus, but because there wasn't a surgeon specializing in strabismus treatment, we decided to postpone the operation for strabismus. However, he was able to receive surgery for cataract and he is happy that he can see clearly now.

Also, eight children were found to have poor vision, requiring glasses. Fortunately, there is a public health center near Kitiko Primary School

1 Registering for a re-examination

where the Vision Care staff offer medical care and treatment. So we took the kids there for an additional eye exam and administration of eye drops.

I had been worried because I needed to take at least twelve people including the parents and our staff. Vision Care picked us up in their ambulances, and I was very grateful.

A week after the exam, the kids finally received the glasses they had been waiting for. In the U.S., Korea and other developed countries, it is easy to obtain glasses, but for children from low-income families in Uganda, it is nearly impossible to purchase glasses, let alone have an eye exam. This is because their families have to worry about putting food on the table and paying for tuition. So as long as the children can walk, all other health issues including poor eyesight are put on the backburner. Actually, the parents of all eight children who were

provided with glasses had not even realized that their children had poor vision, and there had not been any students wearing glasses at the school. Fortunately, through this program, the children got a chance to see more clearly by wearing glasses for the first time in their lives.

I hope that with their corrected vision, the world appears brighter and more brilliant to these children.

TANZANIA

Graduation and Transfers of Students from the 5th Hope Class

Dear our beloved sponsors and donors, I wish you a blessed year in 2019! To those of you living in the Northern Hemisphere such as Korea and North America, I'd like to offer you the heat from Tanzania, which is enjoying its summer season, as a New Year's gift.

The thirty-eight children from the 5th Hope Class have graduated after passing their final exam. Thirty-four of them have enrolled in a public primary school, while one of them has transferred to a special school and three of them will be studying for another year with the new students of the 6th Hope Class.

The children, who had been able to only speak Swahili, can now read and write after studying very hard for the past year. They can also add and subtract three-digit numbers as well. What I am most

thankful about, however, is that they have gained a sense of hope that they will be able to accomplish something if they study hard. Seeing the children and their parents expressing joy at the graduation ceremony made me grateful for the sweat we've all shed this past year. I would also like to extend my deepest gratitude toward pastor Byeongtaek Choi and his wife Jongrye Lee, who provided candy necklaces and props for the graduation ceremony, as well as pastor Hyeoksu Kim and his wife for keeping us in their prayers.

Forty students have enrolled in our 6th Hope Class and they had an orientation on December 21, 2018, with the first day of class scheduled for February 1. I ask for your support, encouragement and prayers for the children of the 6th Hope Class that is set to commence very soon.

Nesseliani's Brick House Has Been Built!

Thanks to an anonymous donor, a brick house has been built for Nesseliani and her family. I am especially happy and grateful, as Nesseliani has been studying hard and volunteering with joy despite her hardships in life. She had been living in a run-down provisional building together with her grandmother, who could no longer work due to old age, her aunt, who had lost her vision, and her mother, who had suffered from a mental illness. Despite her difficult living environment, Nesseliani has been studying hard, while working and volunteering on the side. So the fact that a new home has been built for her and her family brought great joy to the staff at Tanzania Dail Community as well as everyone else in the neighborhood.

What is unfortunate is that her grandmother had passed away just before its completion. It breaks my heart, thinking about the way her grandmother smiled joyfully while watching the bricks being stacked day by day. Even on the day of her death, she expressed joy, while watching the installation of the roof, and she died that night in her sleep, with a smile on her face. Although she is gone, her love for her grandmother will forever remain inside the

brick house. While thinking about her, we planted two banana trees in the yard for Nesseliani's family. We are sure that she and her family as well as their neighbors will be reminded of Nesseliani's grandmother when the trees bear fruit each year.

Inside their new brick home, Nesseliani's family no longer has to worry even in the rainy season and can use the toilet more conveniently. Also, one of the three rooms are being rented out as a small but helpful income source. On behalf of Nesseliani's family, I would like to thank the anonymous donor for making this possible. Thank you, and I hope that the year 2019 is filled with blessings for you.

U.S.A.

Dail Community of USA Joining Forces Again!

Hallelujah! Sending you New Year's greetings from Dail Community of USA!

I would like to send my sincerest gratitude to all of our donors and sponsors in the USA who have provided Dail Community of USA with their love and support. We would not be here today without the love and prayers of each and every one of you. We are making a powerful leap in the year 2019 with a sense of gratitude.

As a way to wrap up the year 2018 and welcome the year 2019, I'd like to share with you some news from Dail Community of USA in regard to various events that took place in November and December.

Chairman Ildo Choi and Executive Director Yeonsu Kim paid a visit to Jeil Presbyterian Church (senior

pastor Eunsang Jo) in Maryland, the Lord Jesus Church (senior pastor Hyeonchan Park) in Richmond, Virginia, Cambridge Korean Church (senior pastor Taehwan Kim) in Boston, and Naperville Onnuri Church (senior pastor Jungjae Lee) in Chicago between November 4 and December 5 for spiritual assemblies, renewal lectures and seminars. I'd like to thank the churches that invited us and the donors who have provided us with their support.

Also, in the same period, Chairman Ildo Choi and Executive Director Yeonsu Kim paid a visit to the headquarters of Dail Community of USA for the 2018 Board Meeting. They met with the directors of Dail Community of USA as well as the senior pastors of the sponsoring churches and individual donors and sponsors to share the grace of God. At the Board Meeting, Gimam Nam from Atlanta and Seonggwon

Kim, an elder at Bethany Church in New Jersey, were appointed as directors of Dail Community of USA, and they expressed their resolve to dedicate every effort for Dail Community of USA to make great strides in the year 2019.

On top of that, Dail Community of USA reached a resolution to expand the scope of its ministry by pioneering a new mission site in Latin America this year. We are grateful that we will be able to serve and share with others not only in Asia and Africa, but also in Latin America. We hope that many of the readers in the United States will partake in our ministry. Also, in the year 2019, we will do our best to raise funds for the reconstruction of Babfor in Cheongnyangni, Korea. Babfor in Cheongnyangni, which has become a symbol of sharing for the Korean Protestant Church, is still operating in a temporary building, and we are praying that a new and more convenient welfare center can be built for the seniors that visit the facility. For this purpose,

Dail Community of USA has reached a resolution to initiate various fund-raising activities. The recent board meeting was especially meaningful, as the directors became resolved to move forward together with one heart, one mind, and one will.

As Dail Community of USA takes a giant step at the beginning of the year 2019..... I hope that the members of Dail Community of USA join forces to reach higher!

KOREA

The Very Special Dail Cultural College! The 'Green Mile' Talk by Ambassador Sangwon Park...

Through Dail Cultural College, a program carried out together with Dongdaemun-gu Office as part of the 2018 Seoul Citizen Participation Budget Implementation Plan, the World's Greatest Class was held 30 times in total.

The 28th lecture at Dail Cultural College was given by Sangwon Park, a celebrated actor and an ambassador of Dail Community.

Sangwon Park, who has had a prolific acting career for the past 40 years since his debut as a stage actor, adjusted his schedule to give us his valuable time and give a lecture at Dail Cultural College.

As a hard-working ambassador of Dail Community, Sangwon Park has recently been on a vision trip to Tanzania Dail Community alongside pastor Ildo Choi

and this was his 20th visit to Africa. You can probably imagine the great love he has for Africa.

Known for his tenacity and conscientiousness, he has also worked very hard as an actor despite the difficulties over the years.

During the lecture, he gave a memorable talk on the "green mile (referring to the green linoleum floor that those on death row must walk to get to the electric chair)," during which he said that everyone has a green mile that they must walk.

We will continue to show our support for ambassador Sangwon Park who does his best on filming sets, at lectures, and in his everyday life, while spending each and every precious moment to the fullest!

Tearful Graduation Ceremony of Dail Cultural College

Following the thirtieth and final lecture, which was given by Chairman Ildo Choi on the topic of "Life of Service and Sharing," the 1st Dail Cultural College Graduation Ceremony took place amidst joyous laughter.

Ingeun Lee gave an awkward smile with tears started to well up in his eyes as he said, "Director Choi, I am so happy today."

One of the graduating students flashed a bright smile expressing great happiness after receiving an Excellence Award.

The Excellence Award was given to students who had not missed any of the thirty lectures. A total of five students received this award, while forty-one students received completion certificates after attending at least 50% of the lectures. Plus, there were 132 students who came to at least two lectures.

The elderly students in their graduation gowns looked excited and overjoyed like children. Hearing them say that they were truly happy to attend the classes made us feel overwhelmed and it was a rewarding experience. The smiles on their faces brought so much joy into our lives, even though what

we have is very little.

As such, the 1st Dail Cultural College Graduation Ceremony held to commemorate the successful conclusion of the thirty lectures of Dail Cultural College came to an end.

Dail Cultural College was like an expected gift for us in the year 2018. We'd like to extend our sincerest gratitude to the thirty lecturers who came and donated their talent, as a way to show us their support.

We'd like to celebrate the arrival of the New Year together with the students, who reminded us to treasure each moment in life, the Seoul Metropolitan Government, Dongdaemun-gu Office and the working-level government officials who gave us this valuable opportunity, and our staff at Dail Little Heaven.

We hope to create and share even greater happiness in the year 2019. Congratulations to all the students who completed the program!

Dail Little Heaven 82-2-2213-8004

KOREA

The winds that blow under the Ssanggul-dari Bridge in Cheongnyangni are especially cold. The season when such biting winds whisper in our ears as they slap our earlobes has returned. Knowing that this harsh season is just one of many hardships they must endure in life, the seniors trudge along, without a complaint, to get to Babfor.

I'd like to introduce to you professor Jaewoong Lee, who volunteered at Babfor for 151st time recently. In addition to his volunteer work at Babfor, he also runs a music class at Cusco Music School in Peru every summer break, paying for all the expenses himself.

"To provide true service, you need to accept and follow their system."

Please introduce yourself.

I graduated from Yonsei University College of Music with a degree in Vocal Music, studied the opera at the University of Music and Performing Arts in Vienna, Austria, and performed in Europe, Asia and the Americas.

I am especially dedicated to nurturing young talents. I've been teaching vocal music at Samyook University Conservatory for many years, and I am currently serving as the choir conductor at Jangchoong Church.

What made you start volunteering at Babfor?

My parents died when I was young, but I was able to continue studying thanks to the help provided by countless people. I had been very busy with work, but as I began to have more free time, I was suddenly reminded of Dail Community and pastor Il-do Choi. That's why I started to volunteer at Babfor. I think of the seniors here as my parents, and I think that's why I have been able to give my time twice a week to volunteer at Babfor.

Is there anything you've realized while volunteering at Babfor? If so, could you tell us about it?

I've realized that although Korea has achieved remarkable economic growth and advances, there are still numerous people who live day to day amidst various hardships and are in need of a helping hand.

Also, after working hard at Babfor, my steps feel much lighter as I return home, and the overwhelming sense of gratitude I feel simply cannot be explained in words.

Is there anything you'd like from Babfor, as a volunteer?

I can sense that the number of volunteers and donors has decreased recently due to the economic downturn. I hope that despite these difficulties, Babfor

will continue providing the bread of life with much love. I pray that more angels will come together to bring peace and happiness that provide warmth to the world.

Babfor Sharing Movement Headquarters
82-2-2214-0365

Donation Request from Babfor

We need a vacuum packaging machine!

Babfor handles massive amounts of food ingredients to feed more than **800 people a day**.

We'd like to keep our food ingredients as fresh as possible, regardless of the weather, so that healthful food can be provided to the homeless and seniors living alone.

To do this, **we need a vacuum packaging machine.**

To be more specific, we need a **commercial-size vacuum packaging machine** as we need to cater to hundreds of people each day, and it costs KRW 2 million.

We are looking for angels who will donate money for this important purchase.

To make a donation, call 02-2212-8004 or 02-2214-0365
(Ms. Mi-gyeong Kim at Babfor Sharing Movement Headquarters)

I Am a Happy Volunteer

Babfor Sharing Movement Headquarters

Samyook University College of Health Science and Social Welfare

Nursing students from Samyook University College of Health Science and Social Welfare, who have been visiting us every year since 2016, paid a visit to Babfor once again. They handed out special gifts (microfiber socks and bread) to seniors on their way home after lunch.

They even carried out a dementia exam for everyone and listened attentively to the stories that the seniors shared with them.

We are sure that they will become amazing nurses in the future! Please join us again at Babfor in 2019!

Jeonghwa Girls' Middle School

Around 60 students Jeonghwa Girls' Middle School visited us at Babfor. The work we do here is never easy, but they kept smiling throughout the day, while working very hard. Some of them even played the cello and violin for the seniors waiting in line to receive food. It became quite chilly due to a sudden rain shower, but the students and teachers continued to give their all. We'd like to extend to them our sincerest thanks!

Ms. Mi-gyeong

We'd like to introduce to you Migyeong Kim who gives her valuable time to help out Babfor when we are in need of a helping hand. After finding out about us through 1365 Volunteer Service Portal, she came to volunteer at Babfor. She says that she was very touched when the seniors thanked her, as she gave out food together with the other volunteers. We are sure that the seniors were also touched by her caring heart. We hope Migyeong Kim continues to share warmth and serves others together with us at Babfor.

Vietnam

Ho Chi Minh Korean Women's Society

The members of Ho Chi Minh Korean Women's Society, who engage in various charity activities, visit us at Babfor every year. Whenever they come and see us, we can feel their passion for sharing and serving others. They lowered themselves to make better eye contact with the children and adults eating at Babfor, as they served them a meal and shared love and warmth.

We'd like to express our sincerest gratitude to the president and members of Ho Chi Minh Korean Women's Society for visiting us annually to serve delicious meals~^^

Uganda

Volunteering at Bbangfor in Uganda While Traveling the World

Geon Lee visited Uganda while traveling across the world and decided to volunteer at Bbangfor. He handed out bread and milk to the primary school students in Kitiko. He was actually volunteering at a kindergarten operated by missionaries when he found out about us. We wish Geon Lee all the best in his future endeavors. Thank you!!!

Little Heaven

Kyung-Hee Girls' High School (Freshmen Volunteer Team)

Freshmen at Kyung-Hee Girls' High School volunteered at Dail Little Heaven. We tend to take notice of the volunteers who work especially hard, and we caught a glimpse of some familiar faces among the volunteers, as they had previously volunteered at Dail Little Heaven. This time, we had the students wrap gifts for a special event. We were amazed to see the end result as the gifts were wrapped beautifully like the ones from department stores, and it felt as though the students had learned the gift-wrapping techniques from a professional gift wrapper. We felt a rush of joy, thinking of how the seniors would react to these beautifully wrapped gifts. All the staff at Little Heaven were truly impressed with their work. Dear students from Kyung-Hee Girls' High School, please come and volunteer again! We'll be waiting for you.

Hwiygeong Technical High School (Volunteer Team from the Dept. of Electrical Control)

There is a group that comes to Little Heaven once a week for volunteer service. They are students from the Department of Electrical Control at Hwiygeong Technical High School. At first glance, we assumed they were college students because they looked quite mature, and later, we realized that they were quite mature on the inside as well. But after conversing with them a few times, we came to a conclusion that regardless of their physical and mental maturity, they are still innocent and pure teenagers. They work so hard - when they clean, they make sure everything is spick and span - that we've had to tell them to take it easy! These kind-hearted young men have been telling us that they would like to come and volunteer individually as well. We hope to see them volunteer at Little Heaven again! Thank you, Hwiygeong Technical High School students!

Volunteers at Dail Cultural College

Dail Cultural College classes were held on Wednesdays. Each class required a lot of prep work and a number of volunteers came to Dail Little Heaven to help out. They always arrived before 9 a.m., which is still quite early in the morning, and their punctuality showed that they were truly ready to serve others. There were many things that needed to be prepared ranging from draw tickets to snacks and attendance records, and they all worked efficiently in a very calm and composed manner, which made them all the more dependable. After class, they tidied everything up on their own, stacking the chairs and sweeping the floor, and waited for us. We thought about how nice it would be to have them volunteer at Dail Little Heaven regularly. Unfortunately, they said they usually do not have any free time on weekdays, but they promised to give us a call when they have time. Please come volunteer with us again! We will be waiting for you. Thank you.

Cambodia (Main Branch in Siem Reap)

Gilead Medical Mission (Siem Reap)

The members of Gilead Medical Mission paid a visit to Cambodia Dail Community with warm and loving smiles. After finishing their mission work at a place located a 2-hour drive away from Phnom Kraum, they rushed over to meet our children and serve them through the Babfor, Bbangfor and sanitation programs. They also promised to show their continued support and visit us for medical missions in the future. After sharing and serving the children with love, they said that they gained love from the pure and lovely children. We'd like to thank the Gilead Medical Mission! eokkun peuleya yesu!

Sebit Missionary School (Siem Reap)

The members of Ho Chi Minh Korean Women's Society, who engage in various Elementary to high school students from Sebit Missionary School located in Daejeon, Korea visited Cambodia Dail Community for an 8-day vision trip. The students, exuding positive energy, engaged in Babfor, Bbangfor, sanitation and cleaning activities, in addition to playing with the children and sharing garlic bread to the local residents of Phnom Kraum and Chong Kneas. They also delivered the donations from Korea for Babfor and our education program. Despite the sweltering heat, the volunteers worked very hard in every program with energetic shouts and fiery passion. We'd like to thank the students from Sebit Missionary School once again! eokkun peuleya yesu!

Cambodia (Phnom Penh Branch)

Fortress Hill Methodist Secondary School (Phnom Penh)

Teachers and students from the Fortress Hill Methodist Secondary School visited us in Phnom Penh to volunteer at Babfor. A total of 17 volunteers played with the children, in addition to volunteering in the Babfor and sanitation programs. The teachers were initially worried as the students are special needs children, but they toiled and shed a lot of sweat, while smiling and saying that they were fine. Seeing them work so hard moved our hearts. Once again, we'd like to thank the teachers and students from the Fortress Hill Methodist Secondary School for their volunteer service.

The Methodist Church, Hong Kong (Phnom Penh)

Members of the Methodist Church in Hong Kong volunteered in the Babfor program of our Phnom Penh Branch. They greeted us with warm smiles and they needed no instructions as they volunteered in the Babfor and sanitation programs. We also held a signboard hanging ceremony at the dormitory for the local staff. The members of the Methodist Church in Hong Kong said that it was very rewarding to see the dormitory, which was built with money their church had donated. Thank you to the members of the Methodist Church in Hong Kong who visited our Phnom Penh Branch to volunteer in the Babfor and sanitation programs and to attend the dormitory construction completion ceremony as well.

Sponsorship Guide

Regular Donations

Happiness of 10,000 Won
(KRW 10,000/month)

The donations are made to support
the Babfor Sharing Movement Headquarters,
Dail Angel's Hospital,
as well as the overseas missions of Dail.

1:1 Overseas Child Sponsorship
(KRW 30,000/month)

A one-on-one tie is formed
between a sponsor
and a child to help raise the child
and foster his/her dreams.

One-time Donations

Dail Angel Sponsorship
(KRW 1 million per account)

This is a sponsorship program where you
can become a "Dail Angel Member"
and support the programs of the domestic
and overseas branches of Dail Community.

Angel Company
(KRW 100,000/month)

This is a sponsorship program for enterprises
to donate a designated amount
on a monthly basis to help people in need
and create a warm society.

1:1 Overseas Child Sponsorship
(KRW 30,000/month)

This is a sponsorship program for churches to
donate a designated amount on a monthly basis
to help vulnerable and marginalized populations
and to further expand the Kingdom of God.

Dail Lifetime Angel Sponsorship
(KRW 10,04 million per account)

This is an eternal sponsorship program where
you can become an "Eternal Dail Angel Member"
and support the Seolgoksan Dail Community
Project and various missions of the domestic
and overseas branches of Dail Community.

DAIL Community
Spiritual Retreat Program

You can find a beautiful world through our
Spiritual Training Center at the Seolgok Mountain DAIL Community.

Are you experiencing happiness regardless of your environment or circumstance at your own will?
Seolgok-Dail community provides the opportunity to travel through spiritual space to seek a beautiful world on mother earth. For a week you can leave all your worries, sorrows, anxieties, and troubles behind and find answers to the question, "Who am I?", "Where am I in my life?", "What am I looking for?" and "What is the road to true happiness?" Along with Pastor Il-Do Choi and Yeon-Soo Kim, we have prepared spirtual leaders who can open doors to grace and guide you through the Christian spiritual training that has been passe down through church traditions including a diverse range of prayer training as well as healing of the whole-person including the body and soul.

Finding a Beautiful World

we focus on the negative emotions that interfere with us and help us to discover the roots of emotions, such as sadness, depression and grievance, which prevent us from living the original nature of God, love and gratitude. Silent Prayer and liner Healing, Facing these negative emotions in the ongoing questions, we find that the roots of the emotions are the rigid thought structures we have created and the unconscious systems that make up the structure of our thoughts. The awakening to notice the system comes with the "Aha!" experience, where the eggs are broken as if the eggshell breaks and the ground is shiny.

ScheduleFeb 4-8(M~F), 2019 in South Korea

The Prayer for the Reconstruction of Babfor Sharing Movement Headquarters

Jesus, who came to earth as the bread of life!
Thank you for allowing us to share warm meals with
more than 10 million people
suffering from poverty and hardship
through Babfor Sharing Movement Headquarters
for the past 30 years.

Although many years have gone by,
Babfor is still being run at a provisional building.
We pray that a permanent facility be established
to better assist our marginalized neighbors
for it will help give comfort and courage
to those living amidst pain, suffering and despair
and provide a much-needed shelter and hope
to the homeless and lonely seniors.

Grant the Babfor volunteers,
who are more than 500,000 in number,
a new mission to participate in
the reconstruction of Babfor Center
so that it may become an iconic place in Dongdaemun-gu
that leads the City of Seoul in sharing and service.

We pray in the name of Jesus Christ,
who achieves reconciliation and union
and brings peace through bab (rice).
Amen,

For those who need a warm meal, We can share our love.

We look forward to your participation in the reconstruction of Babfor.
